The Honorable John Kitzhaber
Governor of Oregon

Dick Pedersen, Director
Oregon Department of Environmental Quality

This report presents the results of our audit of the Clean Water State Revolving Fund (CWSRF) program, an enterprise fund of the Oregon Department of Environmental Quality (department), for the year ended June 30, 2010.

As required by auditing standards, we performed the audit to obtain reasonable assurance about whether the financial statements and accompanying notes have been presented fairly by management. Our Independent Auditor's Report and the financial statements for the fiscal year ended June 30, 2010, are included in the Financial Section of this report. We concluded that the financial statements are fairly presented in accordance with accounting principles generally accepted in the United States of America.

Auditing standards also require us to review the department's internal control of the CWSRF program and compliance with applicable laws, regulations, contracts, and grant agreements. Our report on the results of those reviews is included in the Other Report section of this report. We noted no instances of noncompliance that are required to be reported under *Government Auditing Standards*. Our consideration of internal control was limited to the scope necessary to achieve our audit objectives and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses as defined by generally accepted auditing standards.

We appreciated the cooperation and assistance of the department's management and staff during the course of our audit.

The Honorable John Kitzhaber
Governor of Oregon

Dick Pederson, Director
Oregon Department of Environmental Quality

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the Clean Water State Revolving Fund (CWSRF) program, an enterprise fund of the State of Oregon, Department of Environmental Quality (department), as of and for the year ended June 30, 2010, as listed in the table of contents. These financial statements are the responsibility of the Department of Environmental Quality's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the department's internal control over financial reporting relating to the CWSRF program. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements of the CWSRF program, an enterprise fund of the State of Oregon, Department of Environmental Quality, are intended to present the financial position, changes in financial position and cash flows that are attributable to the transactions of the CWSRF program. They do not purport to, and do not, present fairly the financial position of the Department of Environmental Quality or the State of Oregon as of June 30, 2010, the changes in their financial position or their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the CWSRF program as of June 30, 2010, and the changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 18, 2011, on our consideration of the department's internal control over financial reporting relating to the CWSRF program and on our tests of its compliance with certain provisions of laws, regulations, contracts, grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit. That report is separately presented in the Other Report section of this report.

STATE OF OREGON
DEPARTMENT OF ENVIRONMENTAL QUALITY
CLEAN WATER STATE REVOLVING FUND LOAN PROGRAM
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010

1. Summary of Significant Accounting Policies

The accompanying financial statements of the State of Oregon Department of Environmental Quality have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB), the Financial Accounting Standards Board (FASB) and the American Institute of Certified Public Accountants (AICPA).

A. Reporting Entity

The Oregon Clean Water State Revolving Fund (CWSRF) was established pursuant to Oregon Revised Statutes 468.423 – 468.440 and the 1987 amendments to the federal Clean Water Act. The purpose of the CWSRF is to provide low interest loans to local governments for the planning, design and construction of wastewater treatment facilities, implementing nonpoint source pollution management plans, and the design and implementation of estuary management plans. The loan repayment period is a maximum of 20 years, and all repayments, including interest and principal, must be credited to the State Revolving Fund.

The CWSRF program is administered by the State of Oregon Department of Environmental Quality (DEQ). The CWSRF program consists of several funds to record loan and related activity and an administrative fund that collects loan fees and pays the operating costs of the program, and are collectively referred to as the Fund. DEQ's primary responsibilities for the CWSRF include obtaining capitalization grants from the U.S. Environmental Protection Agency (EPA), soliciting potential interested parties for loans, negotiating loan agreements with eligible public agencies, reviewing and approving payment requests from loan recipients, monitoring the loan repayments, and conducting inspection and engineering reviews to ensure compliance with all applicable laws, regulations, and program requirements.

DEQ charges the Fund for staff time spent on CWSRF activities, and the Fund pays those expenses from the Administration fund. The charges include the salaries and benefits of the employees, as well as indirect costs allocated to the Fund. The rate of indirect cost is negotiated annually with EPA.

The Annual Financial Report is prepared for the U.S. Environmental Protection Agency as an Enterprise Fund of the State of Oregon, which uses the accrual basis of accounting. For the purpose of the State of Oregon's Comprehensive Annual Financial Report (CAFR), the Fund is included as a Governmental Fund – Special Revenue. Due to differences in basis of accounting, there may be differences between the amounts reported in these financial statements and the State of Oregon's CAFR.

Notes to Financial Statements (continued)

June 30, 2010

B. Basis of Presentation – Fund Accounting

DEQ programs and accounts are organized by “funds”, each of which is a separate accounting entity. Each major program utilizes a separate set of self-balancing accounts to record the assets, liabilities, net assets, revenues and expenses of their activities. DEQ’s CWSRF loan program is classified as a proprietary fund. Proprietary funds contain two types of funds: Enterprise Funds and Internal Service Funds. The CWSRF loan program is accounted for in an Enterprise Fund. Enterprise Funds account for operations that are financed and operated in a manner similar to private business enterprises.

C. Measurement Focus and Basis of Accounting

The basic financial statements for the Fund are presented as an enterprise fund. As such, the Fund is accounted for using the flow of economic resources measurement focus and is maintained on the accrual basis of accounting, in accordance with State policy (OAM 15.40.00). Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded at the time the liabilities are incurred, regardless of the timing of the related cash flow. All revenues and expenses of the Fund are considered to be operating revenues and operating expenses, with the exception of grant income, which is considered non-operating revenue. All assets and liabilities associated with the operations of the Fund are included on the Balance Sheet. The State has elected to follow the accounting pronouncements of the Governmental Accounting Standards Board (GASB), as well as statements issued by the Financial Accounting Standards Board on or before November 30, 1989, unless the pronouncements conflict with or contradict GASB pronouncements. The State, however, does not apply FASB pronouncements issued after November 30, 1989.

D. Cash and Cash Equivalents

All monies of the Fund are deposited with the Office of the State Treasurer, which is responsible for maintaining these deposits in accordance with Oregon law. The Fund considers all such deposits to be cash and cash equivalents. Interest earnings on these deposits are received by the Fund on a monthly basis. The Fund has no other cash deposits or investments.

E. Loans Receivable

Loans are funded by Federal capitalization grants, State matching funds, loan repayments and fund earnings. The CWSRF monies are disbursed to borrowers on a cost reimbursement basis. When borrowers have incurred qualifying expenses, they request a loan disbursement from the Fund, and at that time a disbursement is made and recorded in the Fund accounting records. Interest begins accruing when funds are disbursed to the borrower. After the project is complete, repayment begins with an interest only payment. Full repayment must be received by the Fund within 20 years of project completion. Loans Receivable are stated net of the allowance for principal forgiveness.

F. Capital Assets

Capital assets are those assets costing \$5,000 or more and having a useful life of at least one year, under State policy (OAM 15.60.10). Capital assets must be capitalized

Notes to Financial Statements (continued)

June 30, 2010

and reported in the accounting records at historical cost, and depreciated over the useful life of the asset. The CWSRF loan program currently has no capital assets.

G. Deferred Charges

The Deferred Charges shown on the Balance Sheet are the cost of issuing the State match bonds sold to raise the required matching for the federal capitalization grants. These expenses consist of bond issuance costs and are amortized over the life of the bonds using the straight-line method. The \$155,104 represents the unamortized issuance costs of four bond issues (1997A, 2000A, 2008A and 2009A). There is presently no related arbitrage liability.

H. Long-Term Obligations

Long term obligations of the Fund consist of bonds issued to provide the required State matching funds for the federal capitalization grants, and the non-current portion of compensated absences. Bonds issued on behalf of the CWSRF are reported on the Balance Sheet net of the related premium and/or discount. Bond premium, discount and issuance costs are amortized over the life of the bond issues. Bond premium and discount are reported in the Statement of Revenues, Expenses and Changes in Fund Net Assets as bond interest expense. Bond issuance costs are reported as Other Bond Costs.

I. Compensated Absences

Employees accumulate earned but unused vacation and sick leave benefits. There is no liability for unpaid accumulated sick leave since the State does not pay any amounts when employees separate from State service. A liability for vacation leave (compensated absences) is accrued when incurred in proprietary funds as employees may be paid for up to a maximum of 250 hours of accrued vacation leave upon separation from State service.

2. Cash and Cash Equivalents

On June 30, 2010, the book balance of cash and cash equivalents was \$56,962,446 and the bank balance was \$58,940,267. All cash in the Fund is deposited in demand accounts with the State Treasurer in the Oregon Short-Term Fund (OSTF), a cash and investment pool for use by all state agencies.

The custodial credit risk for deposits is the risk that, in the event of a bank failure, the State Treasurer will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The CWSRF does not have a policy regarding custodial credit risk for deposits; however, the insurance and collateral requirements for deposits in the OSTF are established by banking regulations and Oregon law.

Further details of the investments and a copy of the OSTF audited annual financial report may be obtained by writing to the Oregon State Treasury, 350 Winter Street NE, Suite 100, Salem, Oregon 97301-3896 or located at the following web site: <http://www.ost.state.or.us/About/Investment/Default.asp#OSTF>

Notes to Financial Statements (continued)

June 30, 2010

3. Loans Receivable

The Fund makes loans to qualified entities at interest rates ranging from zero percent to the market rate (see ORS 468.440). Interest rates vary depending on the length of the loan, the type of loan, and program rules (at OAR 340-054). Rates range from 25% of the bond rate for 5 year loans to 65% of the bond rate for 20 year loans. Recipients make semiannual or, in some cases, annual payments, generally starting six months after project completion. There is an allowance account for that portion of loan disbursements that will not be repaid due to principal forgiveness offered to some borrowers. Principal forgiveness is offered to some borrowers, based on criteria in administrative rule, to comply with a requirement included in DEQ’s fiscal year 2010 grant agreement with EPA. There is no additional allowance account, because Fund management believes all existing borrowers will pay as agreed. The detail of loans receivable as of June 30, 2010 is as follows:

Loans Receivable	\$ 448,912,211
Less: Principal Forgiveness on Disbursements	(13,445,109)
Net Loans Receivable, 6/30/2010	<u>\$ 435,467,102</u>

4. Bonds Payable

In July 2003 EPA agreed to the use of the CWSRF Fund assets to pay the principal and interest on general obligation bonds that were previously issued by the State to provide the 20 percent state matching funds as required by the Clean Water Act. The following table summarizes bonds outstanding as of June 30, 2010:

General Obligation Pollution Control Bonds								
Original Issue			Bonds Outstanding					
Series	Due Dates	Interest Range	Amount	Beginning Balance	Increases	Decreases	Ending Balance	Due Within One Year
1997 A	1998 – 2018	3.80% - 5.00%	\$8,000,000	\$4,590,000	-	\$410,000	\$4,180,000	\$430,000
2000 A	2001 – 2021	4.15% - 5.50%	8,000,000	5,765,000	-	350,000	5,415,000	365,000
2008A	2009 – 2028	2.00% - 4.50%	4,800,000	4,642,581	-	170,323	4,472,258	178,065
2009A	2010 – 2029	2.00% - 4.00%	4,890,000	-	4,890,000	-	4,890,000	465,000
Total			<u>\$25,690,000</u>	<u>\$14,997,581</u>	<u>\$4,890,000</u>	<u>\$930,323</u>	<u>\$18,957,258</u>	<u>\$1,438,065</u>

The bond interest rates noted above differ depending on the term of the individual security. Thus, those securities with the longest term yield the highest interest rate.

Notes to Financial Statements (continued)

June 30, 2010

The following table summarizes the amounts necessary to pay all future bonded debt principal and interest requirements as of June 30, 2010 for each year during the next five-year period ending June 30, 2015, and in five year increments thereafter.

Years Ending June 30	Bond Principal	Bond Interest	Total Debt Service
2011	\$ 1,438,065	\$ 807,949	\$ 2,246,014
2012	1,253,226	755,895	2,009,121
2013	1,678,387	698,855	2,377,242
2014	1,298,548	638,513	1,937,061
2015	1,431,290	576,864	2,008,154
2016 – 2020	7,037,742	1,851,888	8,889,630
2021 – 2025	3,063,548	637,992	3,701,540
2026 – 2030	1,756,452	146,329	1,902,781
TOTALS:	<u>\$ 18,957,258</u>	<u>\$ 6,114,285</u>	<u>\$ 25,071,543</u>

5. Changes in Long-Term Liabilities

The liability for compensated absences is calculated based on the vacation accrual at 6/30/2010 for each employee whose duties include CWSRF related activities. Data for this calculation is obtained at year end from DEQ's Payroll Department.

Bonds payable includes amounts payable on bonds issued to benefit the CWSRF fund, and also includes the unamortized amounts of bond discount or premium.

The long term liability activity for the year ended June 30, 2010 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Due Within One Year
Bonds Payable	\$ 14,997,580	\$ 4,890,000	\$ 930,323	\$ 18,957,257	\$ 1,438,065
Issuance Premium	24,164	139,313	7,976	155,501	-
Issuance Discount	(100,150)	(29,658)	(12,380)	(117,428)	-
Total Bonds Payable	14,921,594	4,999,655	925,919	18,995,330	1,438,065
Compensated Absences	39,970	50,717	36,950	53,737	43,229
Long-Term Liabilities	<u>\$ 14,961,564</u>	<u>\$ 5,050,372</u>	<u>\$ 962,869</u>	<u>\$ 19,049,067</u>	<u>\$ 1,481,294</u>

6. Loan Fees

In order to support administration and project management costs, loan fees are assessed on loans originating after 1992. A fee of 0.5 percent is assessed on the outstanding loan principal balance and is collected annually, beginning with the second loan payment. Fees are deposited to a separate Treasury account and will be used only for administrative and project management costs. Also, fees on planning loans are not assessed, in order to encourage Oregon communities to complete more planning.

7. Employee Retirement Plan

The Oregon Public Employees Retirement System (PERS) provides retirement plans for the Fund's employees. PERS is administered by the Public Employees Retirement Board under the guidelines of Oregon Revised Statutes, as required by ORS chapter 238 and 238A. PERS issues a separate, publicly available, audited annual financial report that

Notes to Financial Statements (continued)

June 30, 2010

may be obtained from the Fiscal Services Division, Public Employees Retirement System, P.O. Box 23700, Tigard, Oregon 97281-3700.

PERS Pension

The fund's employees who were plan members before August 29, 2003 participate in the Oregon Public Employees Retirement System (PERS), a cost-sharing multiple-employer defined benefit pension plan. The PERS retirement allowance, payable monthly for life, may be selected from several retirement benefit options. Options include survivorship benefits and lump sum payments. PERS also provides death and disability benefits.

The fund is required by State statute to contribute actuarially computed amounts as determined by PERS (the agency). Rates are subject to change as a result of subsequent actuarial valuations. The rate of each covered employee's salary for fiscal year 2010 was 2.06%. Employer contributions for the years ending June 30, 2010, 2009, and 2008 were \$12,615, \$34,768 and \$28,355, respectively, equal to the required contributions for each year.

Public employees hired on or after August 29, 2003 become part of OPSRP, unless membership was previously established in the Oregon Public Employees Retirement System (PERS). The OPSRP pension plan has two components: the Pension Program (defined benefit) and the Individual Account Program (defined contribution). PERS member contributions go into the Individual Account Program (IAP) portion of OPSRP. PERS members retain their existing PERS accounts, but member contributions are deposited in the member's IAP account, not into the member's PERS account.

Oregon Public Service Retirement Plan (OPSRP)

The 2003 Oregon Legislature created the Oregon Public Service Retirement Plan (OPSRP), also a cost-sharing multiple-employer defined benefit pension plan. The Pension Program is administered by the Public Employees Retirement Board under the guidelines of Oregon Revised Statutes, chapter 238A. The OPSRP pension plan has two components: the Pension Program (defined benefit) and the Individual Account Program (defined contribution). Employees hired after August 28, 2003, participate in OPSRP after completing six months of service. The Pension Program provides a monthly pension benefit is payable for life as well as death and disability benefits as established by ORS Chapter 238A.

The Fund is required by statute to contribute actuarially computed amounts as determined by PERS (the agency). Rates are subject to change as a result of subsequent actuarial valuations. The rate of each covered employee's salary for fiscal year 2010 was 2.84%. The Fund has permanently assigned CWSRF employees hired on or after August 29, 2003 and therefore is required to contribute to the OPSRP Pension Program. Employer contributions for the years ending June 30, 2010, 2009 and 2008 were \$3,373, \$6,405 and \$351, respectively, equal to the required contribution amount.

Beginning January 1, 2004, PERS members became part of the Individual Account Program (IAP) portion of OPSRP. PERS members retain their existing PERS accounts,

Notes to Financial Statements (continued)

June 30, 2010

but member contributions are now deposited in the member's IAP account, not into the member's PERS account. All covered employees are required by State statute to contribute 6.0% of their salary to the plan. Current law permits State agencies to pay the 6.0% member contributions for their employees. The amount contributed by DEQ for the years ending June 30, 2010, 2009, and 2008 were \$43,868, \$36,683 and \$28,641, respectively, equal to the required contributions for each year.

8. Other Post-Employment Benefit Plans

The Fund's employees may be eligible to participate in health insurance plans and other benefit plans after retirement, collectively known as Other Postemployment Benefits (OPEB). OPEB plans are offered through the Public Employees Retirement System (PERS) as established by ORS 238 and the Public Employees Benefit Board (PEBB) as established by ORS 243. A copy of the audited annual financial report may be obtained from Fiscal Services Division, Public Employees Retirement System, P.O. Box 23700, Tigard, Oregon 97281-3700.

Retirement Health Insurance Account

The Retirement Health Insurance Account (RHIA) is a cost-sharing multiple-employer OPEB plan which provides a payment of up to \$60 toward the monthly cost of health insurance for eligible PERS members. To be eligible for the RHIA subsidy, the member must: 1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more creditable service in PERS, 2) receive both Medicare Parts A and B coverage, and 3) enroll in a PERS-sponsored health insurance plan.

The Department is required by statute to contribute actuarially computed amounts as determined by PERS. Rates are subject to change as a result of subsequent actuarial valuations. The rate of each covered employee's salary for the fiscal year end June 30, 2010 was .29%, which is embedded within the total PERS contribution rate. Combined employer contributions for the years ended June 30, 2010, 2009 and 2008, were approximately \$174, \$288, and \$212, respectively, equal to the required contributions each year.

The Oregon Legislature has the sole authority to amend the benefit provisions and funding policy for the RHIA plan.

Retiree Health Insurance Premium Account

The Retiree Health Insurance Premium Account (RHIPA) is a single-employer OPEB plan that provides for payment of the average difference between the health insurance premiums paid by retired state employees, under contracts entered into by the PERS Board, and the health insurance premiums paid by state employees who are not retired. Retired state employees are qualified to receive the RHIPA subsidy if they had eight or more years of qualifying service in PERS at the time of retirement or are receiving a disability pension calculated as if they had eight or more years of qualifying service, but are not eligible for federal Medicare coverage.

Notes to Financial Statements (continued)

June 30, 2010

The Department is required by statute to contribute actuarially computed amounts as determined by PERS. Rates are subject to change as a result of subsequent actuarial valuations. The rate of each employee's covered salary for the fiscal year ended June 30, 2010 was .08%, which is embedded within the total PERS contribution rate. A copy of the Oregon PERS annual financial report may be obtained from Fiscal Services Division, PERS, P.O. Box 23700, Tigard, Oregon 97281-3700. The Fund's actual contribution for the year ended June 30, 2010, 2009, and 2008, was approximately \$48, \$78 and \$57, respectively, which was equal to the actuarial required contribution.

The Oregon Legislature has the sole authority to amend the benefit provisions and funding policy for the RHIPA plan.

Public Employees Benefit Board Plan

The Public Employees Benefit Board (PEBB) plan is an agent multiple-employer plan which offers medical, dental and vision benefits to eligible retired employees. Chapter 243 of the Oregon Revised Statutes assigns PEBB the authority to establish and amend the benefit provisions of the PEBB Plan. The PEBB Plan allows qualifying retired employees to continue their healthcare on a self-pay basis until eligible for Medicare, usually at age 65. The PEBB Plan funding policy provides for contributions at amounts sufficient to fund benefits on a pay-as-you-go basis. Active employees do not make contributions. Participating retirees pay their own monthly premiums based on a blended premium rate since retirees are pooled together with active employees for insurance rating purposes. PEBB activity is reported as part of the State of Oregon's annual report and does not issue a separate financial report.

The State of Oregon's liability was \$47.7 Million for the fiscal year ended June 30, 2010. The Fund's portion of this liability was not specifically identified.

9. Commitments

As of June 30, 2010 the CWSRF has active loan agreements in the amount of \$265,889,780 and has disbursed a total of \$137,147,897 in cash to these active borrowers. The amount of undisbursed loan commitments is, therefore, \$128,741,883.

10. Risk Financing

The State Services Division of the Department of Administrative Services administers property and casualty insurance programs covering State government. It is the policy of the division to minimize purchases of commercial insurance for most of the risks of losses to which the State is exposed, as it believes it is more economical to manage the State's risks internally. For accounting purposes, the division sets aside assets for actuarially forecasted losses in the Insurance Fund, an internal service fund. The Insurance Fund, established under Chapter 278 of the Oregon Revised Statutes, services claims for the following kinds of risks: direct physical loss or damage to State property; tort liability claims brought against the State, its officers, employees, or agents; inmate injury; workers' compensation; and employees, elected officials, and members of commissions and boards for honesty and faithful performance. The Insurance Fund is backed by commercial policies, such as an excess property policy with a limit of \$400 million and a

Notes to Financial Statements (continued)

June 30, 2010

blanket commercial excess bond with a limit of \$20 million. The division purchases commercial insurance for specific insurance needs not covered by the Insurance Fund.

All State agencies, commissions, and boards participate in the Insurance Fund. The division allocates the cost of servicing insurance claims and payments by charging an assessment to each State entity based on its share of services provided in a prior period. The total statewide assessment is based on independent biennial actuarial forecasts and division expenses, less any available fund balance in the Insurance Fund from the prior biennium.

The division purchases workers' compensation insurance for the State from SAIF Corporation. The Insurance Fund reimburses SAIF Corporation for the State's workers' compensation claim costs and service fees.

The CWSRF participates in this risk financing program through DEQ, which, as a State agency, is a participant. Settlements have not exceeded insurance coverage in each of the past three years.

11. Subsequent Events

On July 29, 2010, the Department issued 2010 Series A general obligation bonds, generating approximately \$5 million dollars, to provide the required matching funds for CWSRF grant money awarded by EPA. In addition, the federal fiscal year 2010 capitalization grant from EPA was awarded September 15, 2010, in the amount of \$23,017,000.

The Honorable John Kitzhaber
Governor of Oregon

Dick Pedersen, Director
Department of Environmental Quality

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

We have audited the financial statements of the Clean Water State Revolving Fund (CWSRF) program, an enterprise fund of the State of Oregon, Department of Environmental Quality (department) as of and for the year ended June 30, 2010, and have issued our report thereon dated May 18, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the department's internal control over financial reporting relating to the CWSRF program as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for expressing an opinion on the effectiveness of the department's internal control over financial reporting relating to the CWSRF. Accordingly, we do not express an opinion on the effectiveness of the department's internal control over financial reporting relating to the CWSRF.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies

or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the CWSRF program's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the department's management, the Governor of the State of Oregon, the Oregon Legislative Assembly, and the Environmental Protection Agency and is not intended to be and should not be used by anyone other than those specified parties.

OREGON AUDITS DIVISION

Kate Brown
Secretary of State

May 18, 2011

ABOUT THE SECRETARY OF STATE AUDITS DIVISION

The Oregon Constitution provides that the Secretary of State shall be, by virtue of her office, Auditor of Public Accounts. The Audits Division exists to carry out this duty. The division reports to the elected Secretary of State and is independent of the Executive, Legislative, and Judicial branches of Oregon government. The division audits all state officers, agencies, boards, and commissions and oversees audits and financial reporting for local governments.

Audit Team
