RULE SUMMARY

The Secretary of State is launching the Oregon Access Project to improve public records access. As part of the project, the Archives Division will expand public records trainings for members of the public, media, state agencies, and local governments while also adding a new service: facilitated dispute resolution for public records requests. This will maximize current staff expertise, use existing resources, and avoid unnecessary duplication.

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing negative economic impact of the rule on business.
