Purpose of this Advisory

USTM independently monitors the Principal and Supplemental Register of the government's Patent and Trademark Office for changes to federal trademark registrations that can affect existing businesses. The advisories are sent for a variety of reasons including imminent cancellations of existing trademarks, pending applications that may affect a company's ability to use their business name in commerce, deadlines for office actions refusing an existing application and abandonments/cancellations of registrations that infringe on a company's ability to use its name in commerce. There is no obligation of any kind to receive the information that triggered this advisory. USTM is a private company that alerts businesses of events that affect their ability to use their trade name and provides information necessary to make informed decisions about using specific names in commerce.

To verify why you received this advisory, please call: 888-250-8786.

Have your file number available so we can better serve you.

You may also use the form below to request the information.
