

Measure 98

Estimate of Financial Impact Statement

The measure does not affect the aggregate amount of funds collected or expended by state or local government.

The measure does, however, commit a minimum increase of \$147 million annually to expenditures on career and technical education, accelerated learning and high school graduation improvement programs. This number could be lower if state revenues do not grow by \$1.5 billion in the 2017-2019 biennium.

Because the measure does not raise additional revenue, the measure specifically provides that the Legislature determine how these program expansions will be funded.
