OUR MISSION

Build trust between Oregonians and their state government so Oregonians can trust the public services and the public servants who can make a difference in their everyday lives.

Our online presence will reflect our values and our mission.

We believe in democracy. We believe in the right of Oregonians to participate in the democratic process. We believe in a transparent, accountable and accessible government. We believe in helping Oregonians get their businesses off to a good start and supporting their continued growth. We believe in capturing important events in Oregon and telling the full story of our state's history, because that helps us understand how to live and work together as Oregonians.

We believe that every Oregonian regardless of race, religion, gender identity or sexual orientation has the right to live with freedom, respect and safety. Each Oregonian should have equitable access to our democracy and to their government.

Our online presence will reflect these beliefs.
