Organizational Placement
Agency: Oregon Health Authority (OHA)
Division: Addictions and Mental Health (AMH)
Section: Oregon State Hospital (OSH)
Program: Administration

Program Description
Administration includes the OSH Superintendent, Deputy Superintendent, Chief Medical Officer, Chief Nursing Officer, Nursing Director, and their support staff. The Superintendent and Chief Medical Officer are designated by the director of OHA (ORS 426.020). The powers and duties of the Superintendent are outlined in ORS 179.360, and further described in OAR 309.

Administration provides direction and leadership to assure coordination and accomplishment of goals and objectives consistent with legislative intent, directives of the governing body and standards of the Joint Commission (formerly the Joint Commission on Accreditation of Healthcare Organizations), and other licensure and regulatory bodies. Administration develops OSH policies and procedures, and ensures the appropriate utilization of public funds. It plans, organizes, supervises and evaluates all OSH services, activities and programs to ensure delivery of the highest quality mental health treatment and care, and the safety of patients and staff.

Administration coordinates OSH’s implementation of the Behavioral Health Integration Project (BHIP), which is a OHA/AMH initiative to produce a mental health and addiction services management information system for secure portability of client data across the continuum of behavioral health services; OHA/AMH maintains the official copy of BHIP records. BHIP is designed to improve psychiatric care by tracking services; scheduling patients within a treatment mall milieu; facilitating patient transfers to lower levels of care; tracking treatment resource availability; and providing patients improved access to health records, as required by Health Insurance Portability and Accountability Act (HIPAA) (P.L. 104-191; 45 CFR 160 and 164).

The Office of Investigations and Training (OIT) investigates allegations of abuse and neglect at OSH, and maintains the official copy of OSH patient abuse investigation records; OIT is organizationally part of the DHS Administrative Services Division (ASD). OSH Administration maintains a convenience copy of OIT’s OSH patient abuse investigation records for hospital use.

Program Records
001 Child Abuse Report Records
   Retain 5 years after reporting to law enforcement (per ORS 419B.007 et seq.), destroy

Agency: Oregon Health Authority (OHA)
Division: Addictions and Mental Health (AMH)
Section: Oregon State Hospital (OSH)
Program: Clinical Services
Unit: Administration

Program Description
Clinical Services is composed of professionals belonging to four clinical disciplines: Psychology, Rehabilitation Services, Social Work, and Vocational and Educational Services. Staff in each of these clinical disciplines are involved in patient treatment from admission to discharge. The phases of treatment are assessment and evaluation, treatment care planning, therapeutic interventions, and discharge planning. Each clinical discipline is managed by a Discipline Chief or Director who reports to the Director of Clinical Services. Clinical Services is also supported by the Community Reintegration (CRP) and Consumer and Family Services programs.

Agency: Oregon Health Authority (OHA)
Division: Addictions and Mental Health (AMH)
Section: Oregon State Hospital (OSH)
Program: Clinical Services
Unit: Community Reintegration Program (CRP)

Program Description
The Community Reintegration Program (CRP) provides patients with community placement; confidence in their ability to be self-sufficient; and a transition to Community Mental Health Providers (CMHPs). CRP is composed of five specialty treatment areas: Co-Occurring Disorder Treatment (CODTP); Community Transition (CTP); Sex Offender Treatment (SOTP); Supported Employment and Supported Education; and Psychology Assessment and Consultation Services (PACS). CRP’s primary treatment population consists of Psychiatric Security Review Board (PSRB) patients within Forensic Psychiatric Services (FPS), although services and consultation may be provided for other OSH patients.

Program Records

**Organizational Placement**

**Agency:** Oregon Health Authority (OHA)
**Division:** Addictions and Mental Health (AMH)
**Section:** Oregon State Hospital (OSH)
**Program:** Clinical Services
**Unit:** Consumer and Family Services

**Program Description**

Consumer and Family Services provides direct services to consumers, families and significant others in their navigation of the hospital and the mental health system in Oregon. It provides education and resources for handling the issues and challenges faced by individuals with mental illness. It makes suggestions to improve OSH and the state-wide system of care, and participates in solving the issues presented. Consumer and Family Services provides patient advocacy. It serves as a liaison to the Legislative Assembly, Governor's Advocacy Office, Disability Rights of Oregon, and OHA on multiple issues related to mental health. Consumer and Family Services provides services by telephone, mail, e-mail and in person. The director of Consumer and Family Services chairs the Level 2 Grievance Committee (OAR 309 Division 118) (see Administration).

OP/RCS (Oregon Patient/Resident Care System)
Program Description
The Psychology unit provides assessment and treatment services to enhance OSH patient recovery. It utilizes a biopsychosocial approach to address the assessment and treatment of cognitive, emotional, behavioral, and relational difficulties. Specific areas of service include: neuropsychology, sex offender treatment, co-occurring disorders, geriatric, forensic evaluations (competency and criminal responsibility), risk assessment, behavior support plans, cognitive rehabilitation, treatment plan coordination, and group and individual therapies. The unit is supported by psychologists and other mental health specialists, as well as administrators and administrative support specialists.

OP/RCS (Oregon Patient/Resident Care System)
Organizational Placement
Agency: Oregon Health Authority (OHA)
Division: Addictions and Mental Health (AMH)
Section: Oregon State Hospital (OSH)
Program: Clinical Services
Unit: Social Work

Program Description
Social Work supports patient recovery with individualized, strengths-based and trauma-informed care. Services include psychosocial assessment, individualized and group therapy, and case coordination. In providing case coordination, Social Work liaises with patient families and other support systems, including OHA’s AMH and DHS’s Seniors and People with Disabilities (SPD) Divisions, County Mental Health Services Programs, Psychiatric Security and Review Board (PSRB), federal Social Security Administration, and the federal Veterans Administration. These interagency partnerships enable Social Work staff to successfully address the patients’ family, financial, legal, residential, support and other system issues impeding discharge.

Social Work enhances collaboration between patients and their Interdisciplinary Team (IDT) to facilitate patient movement in the least restrictive environment. Social Work also oversees the Patient Affairs Office, which provides assistance to patients applying for Social Security and other benefits; and the Spiritual Care Program, which addresses the spiritual needs of patients.

Program: Clinical Services
Unit: Vocational and Educational Services

Program Description
Vocational and Educational Services provides patients with paid employment and therapeutic interventions that support employment skills. It also provides educational programming for patients, from basic skills through college level coursework.

Occupational Therapists (OTs) provide clinical leadership within Vocational and Educational Services. They are responsible for patient assessment and provide assistance in planning and implementing treatment as well as providing consultative services to other department staff. OTs also provide liaison services to the referring treatment wards and assure that treatment care goals address patient needs. OTs are assisted within Vocational and Educational Services by Certified Occupational Therapy Assistants, Manual Arts Instructors, Rehabilitation Industries Representatives, Support Staff, Student Interns, Institutional Teachers, and Vocational Rehabilitation Counselors.

Vocational and Educational Services is certified as a Sheltered Workshop by the United States Department of Labor (29 CFR 525). This certification allows sub-minimum wage payments to patients who would otherwise be unable to participate in work activities.

Program:  Dental Clinic  

Program Description  
The Dental Clinic examines and treats oral conditions of the patients at OSH. A separate dental record is maintained in the Dental Clinic that includes a copy of the patient's current medications and most recent physical exam. Patient dental records include documentation of decayed, missing and filled teeth, periodontal condition, radiographs taken, and the dental treatment plan. Each patient visit to the Dental Clinic is entered and described in the IDT/MD Notes section. Medication, including antibiotics, analgesics, and sedatives are often prescribed by the Dental Clinic. The Dental Clinic additionally orders its own supplies, arranges for biomedical equipment maintenance, and maintains daily, weekly and monthly safety logs. The Dental Clinic is governed by ORS 678 (Dentists) and 679 (Dental Hygienists and Denturists), and OAR 818.

Program: Finance – Business

Program Description
Finance – Business is responsible for all accounting functions at OSH, including accounts payable, accounts receivable, travel, and patient trust accounts and patient payroll (including tax reporting). It maintains the record copy of all purchasing records, contracts and agreements between OSH (and vendors and providers) and external local, state and federal public agencies.

Finance – Business manages OSH’s Statement of Conditions, a Joint Commission document used to maintain compliance with the National Fire Protection Association’s Life Safety Code. The program also maintains all patient account, billing and personnel records for the hospital.

Organizational Placement
Agency: Oregon Health Authority (OHA)
Division: Addictions and Mental Health (AMH)
Section: Oregon State Hospital (OSH)
Program: Forensic Evaluation Services (FES)

Schedule Number: 2009-0002

Program Description
Forensic Evaluation Services (FES) operates a Joint Commission accredited, and Centers for Medicare and Medicaid Services certified, public psychiatric hospital at OSH. The mission of FES is to provide psychiatric hospital and residential treatment services to individuals committed by the courts as part of the state mental health service system. FES provides mental health evaluation reports to courts to facilitate their decisions relating to mental health issues. FES routinely works with patients under the care of FPS (see Forensic Psychiatric Services program).

Most mental evaluations provided by FES staff are for competency to stand trial and criminal responsibility. Other legal matters requiring FES evaluations include partial responsibility, sex offender issues, issues related to alcohol and drug abuse, extreme emotional disturbance, risk assessment, and factors attendant to the Psychiatric Security Review Board (PSRB).

Individuals under the treatment of OSH to restore competency to stand trial require periodic re-evaluations for the courts of jurisdiction; FES tracks and performs this work. Upon court order for a specific evaluation, individuals are transported to FES for a brief admission (generally less than one day) to enable FES staff to complete the needed assessment. FES also conducts evaluations on an outpatient basis. FES evaluators provide testimony on their evaluation work product when required by the courts. FES also plays an active role in the education and supervision of mental health professional trainees aspiring to learn forensic evaluation skills.

Program: Forensic Psychiatric Services (FPS)

Program Description
Forensic Psychiatric Services (FPS) provides care and treatment to adults found guilty except for insanity and sentenced to supervision by the Psychiatric Security Review Board (ORS 161.327). The FPS program also provides treatment to restore fitness to proceed in a trial to individuals determined not competent to aid and assist their attorney (ORS 161.370).

FPS works in conjunction with the FES program (see Forensic Evaluation Services), which conducts psychological and psychiatric evaluations, including determination of an individual's ability to aid and assist their attorney in a trial and determination if a mental disease or defect limits an individual's criminal responsibility. FPS is primarily regulated by OAR 309-031-0010

Program: Human Resources
Unit: Administration

Program Description

Human Resources provides personnel, payroll, and training-related services for OSH. It recruits new employees, presents new employee orientations, and processes personnel transactions. It provides advice and assistance to agency management and staff about personnel functions and issues. The program also develops plans for staffing and maintains all official personnel records.

Human Resources performs agency payroll functions, such as processing pay and benefit changes; updates and maintains employee payroll and personnel files; and provides technical assistance to OSH staff concerning timesheet preparation, payroll, and deduction information in compliance with applicable laws, rules, procedures and labor union agreements. Human Resources also oversees the hospital’s safety management (see Safety Management unit).

Program: Infection Control

Schedule Number: 2009-0002

Program Description
The Infection Control Program reduces hospital-associated (nosocomial) infections for patients and occupationally acquired infections for health care workers by emphasizing early recognition of risk and use of prevention and control measures at OSH. The program promotes health and improves the quality of clinical care and the working environment by emphasizing prevention and/or control of infectious diseases. Infection Control reduces patient morbidity related to nosocomial infection, and advocates methods to reduce risks to health care workers, considering the cost-effectiveness of each of its recommendations.

Program: Laboratory Services

Program Description
Laboratory Services conducts laboratory testing ordered by OSH physicians for patients under their care. Laboratory Services collects testing samples from patients in the hospital wards, performs testing, analyzes results, and conducts research in the reference laboratory. Laboratory Services maintains an extensive variety of instruments and supplies necessary for the successful support of its diverse testing needs. Laboratory Services is regulated by ORS 438, and OAR 333 Division 24 (Clinical Laboratories), 56 (Infectious Waste Management), and 64 (Accreditation). Federally, the program receives regulatory guidance from the Clinical Laboratory Improvement Amendments of 1988 (P.L. 100-578), as amended (42 U.S.C. 201 and 263a; 42 CFR 493); the federal laboratory retention requirements are listed in 42 CFR 493.1105 and 21 CFR 606.160(d).

**Program Description**

Health Information (HI) is the core of OSH’s medical records system, which includes all programs and treatment disciplines. The process of collecting, monitoring and retrieving medical records information between HI, treatment staff, and Administration continues for the duration of each patient’s stay at OSH.

HI is responsible for administering medical records and patient information throughout the hospital; supporting medical department staff by transcription of treatment reports into the patient medical record; processing the patient’s medical record upon discharge; and coordinating the collection, maintenance and retrieval of all current patient information. HI maintains the record copy of all OSH patient medical records. The program is regulated primarily by OAR 333-505-0050.

Program: Medical Staff Office

Program Description
The Medical Staff Office maintains credentialing and privileging records for OSH’s Medical and Allied Health Professional Staff. It maintains a database to track staff credentialing and privileging, licensure status, federal Drug Enforcement Agency (DEA) certification, board certification, personal identification information (PIN, UPIN), appointment data, and privileges. The Nursing Services program maintains credentialing records for OSH nurses.

The office schedules interdisciplinary patient care monitor meetings; coordinates recruitment and retention of physicians (including securing locum tenens coverage) in conjunction with OSH Human Resources; solicits contractors for specialty physician and other professional positions in conjunction with OSH Operations; prepares and processes physician training requests; and maintains a database to track educational leave. The office also tracks informed consent reviews by outside consultants; works with Oregon Health Sciences University (OHSU) to coordinate the scheduling of residents assigned to OSH-Portland and fellows assigned to OSH-Salem; and maintains resident/fellow information pursuant to Joint Commission and other requirements.

The Medical Staff Office gathers and prepares rate setting information for annual submission to OHA’s Institutional Revenue section; monitors the completion of Medicare provider forms for physicians; prepares and distributes a monthly department calendar of events; and prepares and distributes updates to the OSH Medical Department Manual, and other publications as requested.

The office also hosts and compiles/maintains the records and meeting minutes for Medical and Allied Health Professional Staff (MAHPS), and the following hospital committees: MAHPS Executive; Medical Executive; Credentialing; Bylaws; and Morbidity and Mortality.

Section: Oregon State Hospital (OSH)
Program: Pharmacy

Program Description

The Pharmacy program supports the pharmaceutical care needs of OSH patients. Pharmacists ensure the safety of OSH patients by reviewing medication orders for drug interactions, adverse reactions, therapeutic duplication, and/or medical contraindications each time a medication is dispensed. The Pharmacy program procures and compounds all medications, including oral, topical, and injectable medications as prescribed for patients. The program monitors laboratory values for certain medications and works collaboratively with physicians, nurses, and other healthcare team members to monitor and adjust medication dosing. The Pharmacy program also provides clinical medication therapy management services, research support, and patient and staff education/training. The Pharmacy program additionally works with DHS’s Office of Payment Accuracy and Recovery (OPAR) to secure claim reimbursement for Medicare Part D enrollees. The program is governed by the Oregon Pharmacy Act (ORS 689) and OAR 855.

Section: Oregon State Hospital (OSH)
Program: Psychiatric Recovery Services (PRS)

Program Description
Psychiatric Recovery Services (PRS) primarily serves non-forensic OSH patients who have been civilly committed due to serious and persistent mental illness. It also serves forensic and non-forensic patients from all areas of OSH who have a physical illness or other medical need; patients who have suffered brain damage; and patients requiring general geriatric medical care. PRS provides services at Salem and Portland campuses.

Program: Quality Improvement (QI)

Program Description
The Quality Improvement (QI) program is responsible for preparing OSH for external regulatory surveys, and monitoring key hospital-wide quality indicators. When opportunities for improvement are identified, either by internal monitoring or external surveyors, the QI program helps to develop and track corrective action plans. The QI program coordinates activities related to the hospital’s Quality Council, including numerous operating committees. It plays a lead role in the multi-year, multi-department Continuous Improvement Plan, first initiated in 2007. QI also maintains the record copy of all OSH program accreditation, certification, and licensing records.

The Quality Council is responsible for designing, measuring, assessing and improving hospital performance. It minimizes duplication; enhances communication between programs, departments and other committees; and synthesizes information gathered from a variety of sources.

Committees reporting to the Quality Council include: Patient Safety; Pharmacy and Therapeutics; Clinical Executive; Infection Control (see Infection Control program); Emergency Operations Center; Education and Development; Medical Records; Utilization Review; and Process Improvement. Subcommittees of the Patient Safety Committee include: Catastrophic Incident Response Plan (CIRP); Hospital Accreditation Program (HAP); Primary Care Council; Falls (see Rehabilitation Services unit); and Seclusion and Restraint. Subcommittees of the Emergency Operations Center Committee include Emergency Preparedness and Hospital Safety. Subcommittees of the Process Improvement Committee include: Staffing Effectiveness; Failure Mode and Effects Analysis (FMEA); Root Cause Analysis; and Rapid Process Improvement.

QI administers the Medical Department Continuous Quality Improvement (MDCQI) program, which is the quality improvement mechanism for OSH physicians. MDCQI works to improve the quality of psychiatric and somatic care at OSH, and maintains a standard of physician practice acceptable to hospitals nationwide. MDCQI is overseen by the MDCQI Committee. QI also coordinates and maintains OSH’s Joint Commission accreditation records, regularly submitting required information about OSH programs via the commission’s Accreditation Manager Plus (AMP) software to maintain continuous compliance for the hospital. The Joint Commission is a private, non-profit organization that accredits hospitals nationwide.

Program: Risk Management

Program Description
Risk Management is the central repository for OSH incident reports, including medication variance data. The Risk Management program coordinates and tracks incident report follow-up activity, data trending, and intercommunication with clinical and non-clinical areas throughout the hospital. The program collects data and distributes reports to OSH staff and administration.

Risk Management coordinates OSH’s response to tort claims and other litigation. In conjunction with OSH staff and attorneys, the Risk Management program responds to inquiries from the Oregon Department of Administrative Services (DAS); oversees exhaustive records production requests; conducts confidential staff interviews; and prepares depositions, affidavits and investigatory reports. Risk Management staff also make determinations and recommendations regarding staff claims regarding property loss due to patient actions or tort claims.

Risk Management is responsible for following state and federal legislation, and for responding to measures and amendments with written analysis and testimony, particularly when the Oregon Legislative Assembly is in session. Following each legislative session, Risk Management analyses measure outcomes and delivers compliance recommendations to the administration.

The Risk Management program works on a wide variety of OSH investigations, patient cases, building projects, legal research, and policy changes. It manages OSH Health Licensure complaints, plays a role in responding to Occupational Safety and Health Administration (OSHA) complaints and achieving compliance with the Joint Commission. Risk Management is also involved in OSH’s business continuity planning and emergency preparedness.

Program: Strategic Planning

Program Description
Strategic Planning acts as OSH’s liaison with OHA’s Office of Information Services and other state technology organizations. It acquires and implements new technology at OSH, and manages change requests to existing technology. Strategic Planning also administers OSH’s Management of Information Services (MIS) program, which maintains OSH population records and reports.

Program: Volunteer Services

Program Description
Volunteer Services coordinates the provision of donated time, services and goods to enhance patient care at OSH. It assists hospital staff in providing the care necessary to prepare patients to return to the community as quickly as possible. The program enhances patient services with time and goods not provided in the agency budget by recruiting and coordinating the work of volunteers with special skills (e.g. tutoring, pet visitation, arts and crafts). It also solicits and distributes donations to OSH. It works with groups and individuals within and outside OSH.

Volunteer Services helps patients maintain contact with the community, which aids their ultimate return to the community. It maintains and enhances OSH’s contact with the community by maintaining relationships with supportive groups and individuals. Volunteer Services manages the Peggy Ross Trust fund, a memorial trust that provides annual interest-earned grant funds for OSH patient benefit. Grants are proposed by OSH staff, programs or departments, and reviewed and awarded by the Peggy Ross Grants Committee with the approval of the Superintendent’s Council. Volunteer Services manages the Portland-OSH (POSH) Corner Store, a gift shop staffed by volunteers for the benefit of OSH; the store was previously overseen by the Oregon State Hospital Foundation, which ceased operations in 2008. Volunteer Services also publishes the hospital newsletter, “OSH Recovery Times,” which is printed and posted to OHA’s website.
