**Edition:** June 2017

### Organizational Placement

**Agency:** Department of Transportation (ODOT)
**Division:** Central Service
**Branch:** Audit Services
**Section:** Internal Audit

### Program Description

Internal Audit performs audits of department programs and reports findings to the Director. All audits are performed according to generally accepted Government Auditing Standards issued by the U.S. Government Accountability Office.

The Chief of Audit Services reports administratively to the Chief Administrative Officer and functionally to the ODOT Audit Committee. The ODOT Audit Committee is chaired by the Director of Transportation and membership includes ODOT Executive Management and a representative of the Oregon Transportation Commission.

Program Description:
Civil Rights is responsible for assuring fair and equitable access for all stakeholders to Oregon Department of Transportation opportunities, programs, and services by applying policies and procedures which assures ODOT meets or exceeds all access requirements. Civil Rights ensures agency compliance with Title VI, the federal Civil Rights Act of 1964 prohibiting programs receiving federal funding from discriminating based on race, color, national origin, sex, religion, disability, or age. In addition, Civil Rights oversees ODOT’s socio-economic programs providing individuals and small businesses with opportunities to successfully compete for highway construction and services contracts and jobs. ODOT’s socio-economic programs include Disadvantaged Business Enterprise, Emerging Small Business, Labor Compliance, External Equal Opportunity Employment, and On-the-Job Training.

The Disadvantaged Business Enterprise (DBE) program ensures that ODOT complies with federal regulations requiring that eligible DBE’s are able to compete fairly for federally funded transportation projects. DBE’s are small businesses which are 51% or greater owned by women and ethnic minorities. Businesses and service providers not fitting the criteria may apply for a review and awarding of DBE status on a case-by-case basis. The DBE program is in response to the mandate of 49 CFR part 26 and ORS 200.

The Emerging Small Business (ESB) program is responsible for ensuring the fair and equitable participation and access to opportunities for ESB’s in the state’s public contracting/bid letting processes. ESB’s are independent businesses licensed and registered in Oregon having Oregon as their principal place of business, having fewer than 20 employees, with average gross annual receipts for the proceeding three years of $1.63 million or less for construction firms and $653,000.00 or less for all other firms in Tier 1 of the program. In Tier 2 of the program, construction firms can average up to $3.27 million and non-construction firms $1.1 million or less. The ESB program is in response to the mandate of ORS 200.

The Labor Compliance program is responsible for ensuring construction workers and mechanics on federal and state funded highway projects receive the appropriate prevailing wage rates and benefits. The program monitors certified payroll records of contractors on state, federally funded highway projects to monitor for compliance with wage requirements, investigates wage disputes and complaints and recommends action, and liaisons with government and labor organizations and annually reports to the U.S. Department of Labor.

The On the Job Training (OJT) program is a federally mandated training program targeting highway construction contractors. The program is responsible for promoting the training and development of a highway construction workforce, assisting contractors to meet EEO goals, and promoting the apprenticing of workers and fostering a work force of journeyman level professionals.

Agency: Oregon Department of Transportation (ODOT)
Division: Central Services
Branch: Financial Services
Section: Budget Services

Program Description
Budget Services provides technical expertise, direction, planning, and coordination in the development, presentation, and execution of ODOT’s biennial budget and emergency board actions. The section ensures ODOT’s compliance with the budget preparation guidelines and requirements established by the Department of Administrative Services (DAS) by formatting the agency’s budget to conform to established guidelines for appearance and content. The section reviews the budgets for each division of ODOT. The section accesses and reviews financial information maintained in the TEAMS database.

Program Description
Debt and Innovative Finance is responsible for oversight of the Oregon Transportation Infrastructure Bank (OTIB), which promotes innovative financing solutions for Oregon’s transportation needs, and for issuance and oversight of all bonding and borrowing activities for ODOT.
The OTIB is a statewide revolving loan fund. The program originated in 1996 as a federal pilot program. In 1997 the Legislative Assembly established the program under state statute while expanding the bank’s authority per ORS 367.015. Eligible borrowers include cities, counties, transit districts, port authorities, other special service districts, tribal governments, state agencies, and private for-profit and not-for-profit entities.
Bonds are issued by the State of Oregon through the Treasury Department and ODOT. Bond authority is granted to ODOT per ORS 367 and includes the authority to issue Highway User Tax Revenue Bonds under the Oregon Transportation Investment Act (OTIA), as well as authority to issue bonds for the OTIB.

Team: Payroll

Schedule #: 2005-0002

Program Description
Payroll is responsible for processing all agency personnel payroll actions including validating and entering time records, responding to garnishments, processing SAIF Claims, voluntary deductions, education expenses, and the entry of data/information into the Oregon State Payroll System (OSPS). ODOT began using the OSPS in 1988. Prior to using OSPS payroll time sheets and records were generated and maintained in ODOT field offices. Currently all payroll records are filed through the Financial Services payroll team. In addition, the team handles automatic payroll deductions including deductions for agency maintained housing and energy use.

Group: Fuels Tax

Program Description
Fuels Tax is responsible for administering Oregon’s fuel tax statutes and administrative rule(s) and the accurate processing and auditing of fuel tax reports and refunds. The group provides licensing and tax report processing for Motor Vehicle Fuel Dealers and Use Fee Licensees. In addition to administering ORS 319, Oregon’s fuel tax statute, the group administers fuel tax ordinances and collects fuel taxes for selected counties and cities. The group collects motor fuel taxes on gasoline and ethanol blends for Washington and Multnomah counties and currently collects motor vehicle fuel taxes for the cities of Woodburn, Eugene, Springfield, and Cottage Grove on gasoline, ethanol, and un-dyed diesel. In addition, the Group manages the taxation, accounting, and reporting on sales of aviation and jet fuel in Oregon. Taxes are collected by fuel type, which fall into two broad categories. Motor Vehicle Fuels include gasoline, aviation gasoline and jet fuel, and ethanol blends. Oregon Use Fuels consists of diesel, propane, compressed natural gas, and any other fuel not designated a motor vehicle fuel. Motor Vehicle Fuel Taxes are paid at the large company or corporate level, i.e. Chevron/Texaco, on a monthly basis. Taxes on Oregon Use Fuels are paid by the actual end user or wholesaler/retailer either monthly, quarterly, or annually. The fuels tax group reviews applications and issues or denies licenses for motor vehicle fuel dealers and use fuel licensees.

Division: Central Services
Branch: Human Resources

Program Description

Human Resources is responsible for providing staffing and support to ensure the agency develops and maintains an effective, efficient work force adaptable to changes in the agency’s mission and operational procedures. In addition, Human Resources provides technical services and advice concerning the administration of personnel, safety, and employee development. The branch is responsible for administering the five elements that comprise ODOT’s Human Resources; Business Operations, Employee Relations, Labor Relations, Human Resource Development, Internal Civil Rights, and Program Services.

Labor Relations and Classification staff provide assistance and expertise in the development and implementation of administrative policy concerning collective bargaining between labor unions and represented members of the Department’s workforce. Staff develop awareness within the Department concerning labor contract administration and ensures compliance with the collective bargaining agreements adopted by the agency. The Labor Relations and Classification staff prepares responses to grievances concerning contract articles, provide testimony before arbitration hearings to the employment relation’s board, and address issues not found under the union contract. Staff reviews and recommend all off duty/extraneous employment requests of staff for approval or denial. In addition, staff conducts classification/reclassifications for the Agency. Classification work includes processing requests by individuals/units and reviewing bulk studies to ascertain the validity of the requested action.

The Internal Civil Rights program is responsible for monitoring and ensuring ODOT’s compliance with all requirements for EEO related programs including the Americans with Disabilities Act, Title VII, Affirmative Action, and Diversity. The program coordinates ODOT’s internal civil rights actions/efforts, provides technical information and expertise to management staff, gathers information and prepares reports for submission to the Federal Highway Administration/the Governors Office/ODOT Executive Management Team. The Internal Civil Rights program is responsible for forming the individual ODOT division affirmative action drafts into a comprehensive plan meeting federal requirements.

Unit: E-Government

Program Description
E-Government is responsible for designing and implementing a standardized means for ODOT to deliver web-enabled government services to the public, business partners, and employees. Services for the public and business partners will be available through the agency’s Internet site while employees will use the agency intranet. By applying electronic technologies to the delivery of services E-Government will provide enhanced delivery of ODOT services, improve interaction between ODOT and clients/business partners, empower citizens through information access, and increased efficiency in management of agency materials and resources. The unit develops policy and procedure recommendations which are forwarded to the IT Executive Steering Committee for approval.

Program Description
Supply Operations is responsible for the Agency’s storeroom and supply accounting, Transport Services and ODOT’s Sign Shop. Supply Operations is responsible for ordering and managing materials inventory including but not limited to sensitive documents, signs, and specialty items. Transport Services is responsible for the operation of ODOT’s under bridge inspection assets consisting of snooper cranes. The program operates the agency mobile auger unit used for bridge/sign support excavation, the removal of guard rail posts, and any hole boring 36 inches or less in diameter. In addition, Transport Services provides statewide transport and delivery of products, equipment, and agency assets. During emergency conditions the unit provides 24-hour delivery service. The unit provides enclosed transport, the transporting of heavy equipment, and delivery of mobile offices and labs. In addition, Transport Services moves disabled vehicles and equipment to ODOT and DAS surplus property sites and transports aggregate for road maintenance operations.
ODOT’s Sign Shop is responsible for manufacturing, managing the inventory, and delivery by order of signs used by ODOT including specialty signs designed and manufactured to specifications established by agency engineers.

Schedule #: 2005-0002

Agency: Oregon Department of Transportation (ODOT)
Division: Central Services
Branch: Support Services
Office: ODOT Procurement

Program Description
ODOT Procurement is responsible for purchasing products and services and managing all contracts for personal/professional services, trade service contracts or agreements, public works contracts, scoping and letting of contracts for highway and bridge construction and major renovation projects, and contracts for goods. Using formal and informal competitive processes the section issues Requests for Proposals. Formal solicitations for personal and professional services are advertised in the Daily Journal of Commerce, the DAS ORPIN, and the ODOT web site. Informal solicitations are advertised on the VIP and ODOT web site. Solicitations for trade services, public works, and goods are posted using Invitations to Bid, Requests for Proposals, and alternative contracting processes.

Program Records
076  Ad Hoc Reports
    Retain 6 years, destroy
