Program: Oregon School Bond Guaranty

Program Description:

Under the Oregon School Bond Guaranty Program, the Office of the State Treasury may guarantee the general obligation bonds of school districts, education service districts or community colleges for the purpose of providing interest cost savings to state taxpayers

Oregon voters approved Ballot Measure 54, in 1998, which amended the constitution allowing the state to guaranty qualified bonds of eligible school districts, education service districts, and community colleges throughout Oregon. As a result, the program allows qualified districts to have their bonds rated based on the State's current credit rating. The program saves districts thousands of dollars in interest costs over the life of the district's bonds.
