Independent Auditor's Report

To the Honorable Tina Kotek Governor of Oregon

To the Public Employees Retirement Board of the Oregon Public Employees Retirement System Tigard, Oregon

Report on the Audit of the Schedules

Opinions

We have audited the schedule of employer allocations of Oregon Public Employees Retirement System (the System) Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (the Plan) as of and for the fiscal year ended June 30, 2024, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and total pension expense/(credit) (specified column totals) included in the accompanying schedule of pension amounts by employer of the Plan as of and for the fiscal year ended June 30, 2024, and the related notes as listed in the table of contents.

In our opinion, the accompanying schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and total pension expense/(credit) for the total of all participating entities of the Oregon Public Employees Retirement System Cost-Sharing Multiple-Employer Defined Benefit Pension Plan as of and for the fiscal year ended June 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedules section of our report. We are required to be independent of the System, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Schedules

The System's management is responsible for the preparation and fair presentation of the schedules in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Matter

We have audited, in accordance with standards generally accepted in the United States of America, the financial statements of the fiduciary activities and the proprietary activities of the Oregon Public Employees Retirement System as of and for the fiscal year ended June 30, 2024, and our report thereon dated November 27, 2024, expressed unmodified opinions on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of the System's management, the Audit Committee, the Public Employees Retirement Board, the System's participating employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Macias Gini É O'Connell LAP

(1) Excludes employer specific amounts due to contributions subsequent to the measurement date and differences between actual employer contributions and the employer's proportionate share of contributions. Proper treatment of such amounts is the responsibility of the employer.

Cost-Sharing Multiple-Employer Defined Benefit Pension Plan Notes to the Schedules of Employer Allocations and Pension Amounts by Employer As of and for the Fiscal Year Ended June 30, 2024

Note 1 - Description of Plan

A. Organization

Oregon Public Employees Retirement System (PERS or the System) administers a cost-sharing, multiple-employer defined benefit pension plan (Plan) for units of state government, political subdivisions, community colleges, and school districts, containing multiple actuarial pools. Plan assets may be used to pay the benefits of the employees of any employer that provides pensions through the Plan. Participation by state government units, school districts, and community colleges is mandatory. Participation by most political subdivisions is optional, but irrevocable after election. As of June 30, 2024, there were 953 participating employers and State Agencies.

PERS is administered in accordance with Oregon Revised Statutes (ORS) Chapter 238, Chapter 238A, and Internal Revenue Code Section 401(a). The Oregon Legislature has delegated authority to the Public Employees Retirement Board (Board) to administer and manage the System. All members of the Board are appointed by the Governor and confirmed by the State Senate. The Governor designates the chairperson. One member must be a public employee or retiree, and three members must have experience in business management, pension management, or investing.

B. Plan Membership

The 1995 Legislature enacted Chapter 654, Section 3, Oregon Laws 1995, which has been codified into ORS 238.435. This legislation created a second tier of benefits for those who established membership on or after January 1, 1996. The second tier does not have the Tier One assumed earnings rate guarantee and has a higher normal retirement age of 60, compared to 58 for Tier One. For Tier One members, as of June 30, 2024, there were 7,928 active plan members, 127,957 retired plan members or their beneficiaries and alternate payees currently receiving benefits, 6,927 inactive plan members entitled to but not yet receiving benefits, for a total of 142,812 Tier One members. For Tier Two members, as of June 30, 2024, there were 23,549 active plan members, 12,332 inactive plan members entitled to but not yet receiving benefits, for a total of 60,129 Tier Two members.

The 2003 Legislature enacted HB 2021, codified as ORS 238A, which created the Oregon Public Service Retirement Plan (OPSRP). OPSRP consists of the Pension Program (defined benefit) and the Individual Account Program. Membership includes public employees hired on or after August 29, 2003. As of June 30, 2024, there were 163,367 active plan members, 13,931 retired plan members or their beneficiaries and alternate payee currently receiving benefits, 10,596 inactive plan members entitled to but not yet receiving benefits, and 24,658 inactive plan members not eligible for refund or retirement, for a total of 212,552 OPSRP Pension Program members.

Beginning January 1, 2004, PERS active Tier One and Tier Two members became members of the Individual Account Program (IAP) of OPSRP. PERS members retain their existing Plan accounts, but member contributions are now deposited into the member's IAP account, not into the member's Defined Benefit Plan account. Accounts are credited with earnings and losses net of administrative expenses. OPSRP is part of PERS and is administered by the Board. The PERS Board is directed to adopt any rules necessary to administer OPSRP, and such rules are to be considered part of the Plan for IRS purposes.

Note 2 - Summary of Significant Accounting Policies

Governmental Accounting Standards Board (GASB) Statement No. 68

Employers participating in the Plan are required to report pension information in their financial statements for fiscal periods beginning on or after June 15, 2014, in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68).

The requirements of this statement incorporate provisions intended to reflect the effects of transactions and events related to pensions in the measurement of employer liabilities for pensions and recognition of pension expense and deferred outflows of resources and deferred inflows of resources related to pensions.

The Schedule of Employer Allocations and the Schedule of Pension Amounts by Employer (Schedules), along with PERS audited financial statements and the schedule of pension amounts under the GASB 68 report prepared by PERS' third-party actuaries provide employers with the required information for financial reporting related to PERS pensions provided through the Plan as of and for the fiscal year ended June 30, 2024 (the measurement period).

The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles as applicable to governmental organizations. In doing so, PERS adheres to the reporting requirements established by the GASB.

Employers are presented in order by PERS assigned employer number in the Schedules. Certain employers have a secondary relationship with primary employers and are included in the primary employers' pension amounts and actuarial valuations. The primary employers are responsible for determining the secondary employers' proportionate share of pension amounts. Certain employers no longer have payroll subject to pension contributions and are considered "non-reporting". Based on the definition adopted in the Oregon Administrative Rules (OAR), the first use of the Contingency Reserve for the insolvent employers was approved by the Board in September 2017. The remaining employers on the non-report list have other actions available (pursue collection, leave as-is, etc.). PERS staff have completed a process map and procedures to address the remaining non-report employers. These non-report employers are included in the Schedules.

Basis of Accounting

Contributions for employers are recognized on the accrual basis of accounting. Employer contributions to PERS are calculated based on creditable compensation for active members reported by employers. Employer contributions are accrued when due pursuant to legal requirements. These are amounts normally included in the employer statements cut off as of the fifth of the following month. The Schedule of Pension Amounts by Employer does not reflect deferred outflows of resources or deferred inflows of resources related to differences between actual employer contributions and the employer's proportionate share of contributions or contributions made by employers after the measurement date. Employer-paid member contributions and contributions from members other than judges are reported in the IAP and are not part of the Plan. Appropriate treatment of such amounts is the responsibility of the employer.

Oregon Public Employees Retirement System Cost-Sharing Multiple-Employer Defined Benefit Pension Plan Notes to the Schedules of Employer Allocations and Pension Amounts by Employer As of and for the Fiscal Year Ended June 30, 2024

The Schedule of Employer Allocations reflects employer allocation percentages calculated by PERS for the fiscal year ended June 30, 2024 (the measurement date). Consistent with GASB 68, paragraph 50, employer proportions are actuarially determined as of December 31, 2022, the date of the actuarial valuation used to measure the collective net pension liability.

Proportionate Share Allocation Methodology

The basis for the employer's proportion is actuarially determined by comparing the employer's projected long-term contribution effort to the Plan with the total projected long-term contribution effort of all employers. The projected long-term contribution effort is equal to the sum of the present value of future normal costs (PVFNC) and the unfunded actuarial liability (UAL). The contribution rate for every employer has at least two major components: Normal Cost Rate and UAL Rate.

The PVFNC represents the portion of the projected long-term contribution effort related to future service.

An employer's PVFNC depends on both the Normal Cost Rates charged on the employer's payrolls, and on the underlying demographics of the respective payrolls. For PERS funding, employers have three different payrolls, each with a different Normal Cost Rate:

- Tier One/Tier Two payroll
- OPSRP General Service payroll
- OPSRP Police & Fire payroll

A UAL exists when Plan assets are less than the actuarial liability as measured by the Plan's actuarial funding valuations. UAL can arise in a biennium when an event such as experience differing from the assumptions used in the actuarial valuation occurs. An amortization schedule is established to eliminate the UAL that arises in a given biennium over a fixed period of time if future experience follows assumption. The UAL Rate is the upcoming year's component of the cumulative amortization schedules, stated as a percentage of payroll. The UAL represents the portion of the projected long-term contribution effort related to past service. In determining the employer's projected long-term contribution effort to the Plan, the UAL component was adjusted for supplemental lump-sum payments made during the measurement period, if applicable.

After the employer's projected long-term contribution effort is calculated, that amount is reduced by the value of the employer's supplemental lump-sum payments, known as side accounts, transition surpluses and pre-SLGRP (State and Local Government Rate Pool) surpluses as of the valuation date. Side accounts decrease the employer's projected long-term contribution effort because side accounts are effectively pre-paid contributions.

The employer's projected long-term contribution effort does not include payments toward the current value of transition liabilities and pre-SLGRP liabilities, which PERS has determined meet the definition of separately financed employer liabilities.

If the calculation of the employer's projected long-term contribution effort yields a negative number, the employer's portion of the projected long-term contribution effort will be set to zero and the employer will be allocated no proportionate share of pension amounts.

Oregon Public Employees Retirement System Cost-Sharing Multiple-Employer Defined Benefit Pension Plan Notes to the Schedules of Employer Allocations and Pension Amounts by Employer As of and for the Fiscal Year Ended June 30, 2024

Use of Estimates in the Preparation of the Schedules

The preparation of the Schedules in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect certain amounts and disclosures. Actual results could differ from those estimates.

Note 3 - Net Pension Liability and Actuarial Assumptions and Methods

The components of the employers' net pension liability are as follows (in millions):

<u>Net Pension Liability (in Millions)</u> <u>As of June 30,</u>	
	 2024
Total Pension Liability Plan Fiduciary Net Position	\$ 107,326.7 85,099.5
Employers' Net Pension Liability	\$ 22,227.2
Plan net position as a percentage of total pension liability	79.3 %

The actuarial measurement of the total pension liability and other pension amounts does not include the IAP.

Actuarial Methods and Assumptions

Actuarial Methods and Assumptions							
	Pension						
Valuation date	December 31, 2022						
Measurement date	June 30, 2024						
Experience Study	2022, published July 24, 2023						
Actuarial assumptions:							
Actuarial cost method	Entry Age Normal						
Inflation rate	2.40 percent						
Long-term expected rate of return	6.90 percent						
Discount rate	6.90 percent						
Projected salary increases	3.40 percent						
Cost-of-living adjustments (COLA)	Blend of 2.00% COLA and graded COLA (1.25%/0.15%) in accordance with <i>Moro</i> decision; blend based on service.						
Mortality	Healthy retirees and beneficiaries:						
	Pub-2010 Healthy Retiree, sex distinct, generational with						
	Unisex, Social Security Data Scale, with job category						
	adjustments and set-backs as described in the valuation. <i>Active members:</i>						
	Pub-2010 Employee, sex distinct, generational with						
	Unisex, Social Security Data Scale, with job category						
	adjustments and set-backs as described in the valuation.						
	Disabled retirees:						
	Pub-2010 Disabled Retiree, sex distinct, generational with						
	Unisex, Social Security Data Scale, with job category						
	adjustments and set-backs as described in the valuation.						

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2022 Experience Study, which reviewed experience for the four-year period ended on December 31, 2022.

Discount Rate

The discount rate used to measure the total pension liability of the Plan was 6.90 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Cost-Sharing Multiple-Employer Defined Benefit Pension Plan Notes to the Schedules of Employer Allocations and Pension Amounts by Employer As of and for the Fiscal Year Ended June 30, 2024

Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in January 2023 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model. For more information on the Plan's portfolio, assumed asset allocation, and the long-term expected rate of return for each major asset class, calculated using both arithmetic and geometric means, see PERS' audited financial statements at:

https://www.oregon.gov/pers/Documents/Financials/ACFR/2024-ACFR.pdf

Depletion Date Projection

GASB 68 generally requires that a blended discount rate be used to measure the total pension liability (the actuarial accrued liability calculated using the Individual Entry Age Normal Cost Method). The long-term expected return on plan investments may be used to discount liabilities to the extent that the plan's fiduciary net position (fair value of investment assets, all others at cost) is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where the fiduciary net position is not projected to cover benefit payments and administrative expenses. Determining the discount rate under GASB 68 will often require that the actuary perform complex projections of future benefit payments and pension plan investments. GASB 68 (paragraph 67) does allow for alternative evaluations of projected solvency, if such evaluation can reliably be made. GASB does not contemplate a specific method for making an alternative evaluation of sufficiency; it is left to professional judgment.

The following circumstances justify an alternative evaluation of sufficiency for the Plan:

- PERS has a formal written policy to calculate an Actuarially Determined Contribution (ADC), which is articulated in the actuarial valuation report.
- The ADC is based on a closed, layered amortization period, which means that payment of the full ADC each year will bring the plan to a 100% funded position by the end of the amortization period if future experience follows assumption.
- GASB 68 specifies that the projections regarding future solvency assume that plan assets earn the assumed rate of return and there are no future changes in the plan provisions or actuarial methods and assumptions, which means that the projections would not reflect any adverse future experience which might impact the plan's funded position.

Based on these circumstances, it is PERS' independent actuary's opinion that the detailed depletion date projections outlined in GASB 68 would clearly indicate that the fiduciary net position is always projected to be sufficient to cover benefit payments and administrative expenses.

Deferred Inflows of Resources and Deferred Outflows of Resources

Deferred inflows of resources and deferred outflows of resources are calculated at the Plan level and are allocated to employers based on their proportionate share. For the measurement period ended June 30, 2024, employers will report the following deferred inflows of resources and/or deferred outflows of resources:

- A difference between expected and actual experience.
- Changes in assumptions
- Changes in employer proportion since the prior measurement date
- Net difference between projected and actual investment earnings

Differences between expected and actual experience, changes in assumptions, and changes in employer proportion are amortized over the average remaining service lives of all plan participants, including retirees, determined as of the beginning of the respective measurement period. Employers are required to recognize pension expense based on the balance of the closed period "layers" attributable to each measurement period. The average remaining service lives determined as of the beginning of each measurement period are described below:

Fiscal Year ended June 30, 2024 - 5.3 years Fiscal Year ended June 30, 2023 - 5.4 years Fiscal Year ended June 30, 2022 - 5.5 years Fiscal Year ended June 30, 2021 - 5.4 years Fiscal Year ended June 30, 2020 - 5.3 years Fiscal Year ended June 30, 2019 - 5.2 years

The net difference between projected and actual investment earnings attributable to each measurement period is amortized over a closed five-year period.

In addition, employers may need to recognize a difference between their actual employer contributions and their proportionate share of contributions, which is not reflected in the Schedule of Pension Amounts by Employer. GASB 68 requires employers to amortize that difference over the remaining service lives of all plan participants, including retirees, determined as of the beginning of the respective measurement period. Employer contributions made after the measurement date are also excluded from the Schedule of Pension Amounts by Employer. Appropriate treatment of such amounts is the responsibility of the employer.

If you have questions about this report or need additional financial information, please contact the Financial and Administrative Services Division Administrator at PO Box 23700, Tigard, Oregon 97281-3700.
