October 20, 2025

The Honorable Tina Kotek Governor of Oregon State Capitol Building 900 Court Street NE Salem, Oregon 97301

To the Honorable Tina Kotek and Citizens of the State of Oregon:

We are pleased to provide you with the Annual Financial Report of the Oregon Department of Veterans' Affairs (the "Department") Loan Program Enterprise fund, for the fiscal year ended June 30, 2025.

This report is organized and presented in four sections. The Introductory Section includes this transmittal letter and an organizational chart. The Financial Section includes the independent auditor's report, management's discussion and analysis, the financial statements and accompanying notes. The Statistical Section includes selected financial and programmatic information, much of which is presented on a multiyear basis. The Other Reports section includes the independent auditor's report on compliance and internal control over financial reporting.

Department management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The Oregon Secretary of State Audits Division audited the Department's Loan Program Enterprise Fund for the year ended June 30, 2025. Their unmodified opinion on the Enterprise Fund financial statements is included in the Financial Section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

OREGON ECONOMY

Recent Trends - According to excerpts from the September 2025 Oregon Economic and Revenue Forecast from the Oregon Office of Economic Analysis (OEA):

Economic Summary

An ongoing deceleration in the national economy is imposing a dominant set of conditions on the state economic and revenue outlook. History shows (particularly recent history) that Oregon's economic fortunes are increasingly bound by prevailing national trends. As such, the economic profile for the current biennium resembles a check-mark or hockey stick, as opposed to a steady climb. Improving conditions later in the biennium mitigate weakness in the earlier periods—so long as recession is avoided or near-term prospects do not deteriorate more severely than anticipated.

Inflation and the Federal Reserve

Central bankers are averse to overstimulating the economy via interest rate reductions because inflation continues to run hot. Recent data have begun to more clearly show pass-through of tariffrelated price pressures, particularly for consumer goods. This is constraining the Federal Reserve from acting more quickly or forcefully in the face of deteriorating labor conditions, and thereby leaving a restrictive interest rate policy in place.

Recently passed tax reforms will potentially provide some economic lift, but not until 2026 and beyond. In the interim, the extent to which tariff pressures do pass along U.S. supply chains and either crimp corporate profit margins or deliver an inflation shock to consumers will serve as a regressive tax hike. As such, households and businesses will have to endure a stiffening fiscal headwind from tariffs before any fiscal tailwinds related to tax reforms arrive in 2026.

Outlook

The national economy has lost momentum over the last year based on vital statistics including gross domestic product and employment, but to date it appears to have avoided slipping into recession.

Elevated fears among forecasters for an imminent economic contraction following the announcement of "Liberation Day" reciprocal tariffs in April appear to have been overblown—in part because tariff implementation was delayed and ultimately was less severe. Nevertheless, it is premature to sound an economic all-clear, as the consensus among forecasters anticipates further slowing through year-end.

The silver lining of this connection is that while Oregon has underperformed national trends related to output and labor conditions of late, a slowing but still growing national economy should provide a lifeline to the state and thus avert a sustained contraction.

MAJOR INITIATIVES

Current Service Efforts and Accomplishments - Article XI-A of the Oregon Constitution outlines the broad duties of the Department. The primary Oregon Revised Statutes (ORS) governing the Department are Chapters 406 through 408.

The **Veterans' Loan Program** provides home loans to Oregon veterans at favorable interest rates. Both federal and State laws govern eligibility requirements on who may receive a veterans' home loan. As of June 30, 2025, this Program had approximately 1,594 mortgage loans and contracts outstanding, with a principal balance of approximately \$411 million.

FINANCIAL INFORMATION

Enterprise Fund - The Veterans' Loan Program is an enterprise fund which is used to account for the Department's business-type activities.

At June 30, 2025, the Veterans' Loan Program had approximately \$608.6 million in assets (primarily consisting of cash and cash equivalents and loan and contract receivables) and approximately \$468.7 million in liabilities (primarily consisting of general obligation bonds). Revenues from the Department's home loan program are primarily generated through interest on loans originated and investment income. These revenues are used to pay interest expense on outstanding debt and related program and administrative expenses.

Debt Administration - The Department, with the approval of the State Treasurer's office, has authority to issue general obligation bonds to fund the home loan program. The Department's general obligation bonds

are rated as part of the State of Oregon's general obligation bond program. As of June 30, 2025, the Department's long-term general obligation bonds were rated as follows:

> Moody's Investor Service Aa1 Fitch Ratings AA+ Standard & Poor's AA+

As of June 30, 2025, the Department had approximately \$428.5 million (par value) in outstanding bonds. During fiscal year 2025, approximately \$49.7 million in bonds were issued and with approximately \$11 million in bonds refunded.

Cash Management - All monies collected by the Department are turned over to the State Treasurer, who is responsible for the control of cash and the investment of State funds (excluding funds held by the loan cancellation life insurance carrier). On June 30, 2025, the Department's Loan Program cash, cash equivalents (excluding securities lending collateral), and investments totaled approximately \$172.7 million.

The Oregon Investment Council, of which the State Treasurer is a member, establishes investment policy for all State of Oregon funds. To further Oregon's economic growth, the Council's continuing policy has been to invest locally when investments of comparable yield, quality, and maturity can be found in state without damaging portfolio diversity. Fortunately for Oregonians, State-imposed safeguards minimize the dangers of investing in highly leveraged financial instruments that have been a cause of national concern. The State Treasurer pools all available cash into the Oregon Short-Term Fund from which investments are made in a variety of financial instruments.

Acknowledgements - The preparation of this report reflects the combined efforts of the Department's staff. The professionalism, commitment, and effort of the individuals involved are very much appreciated.

Respectfully submitted,

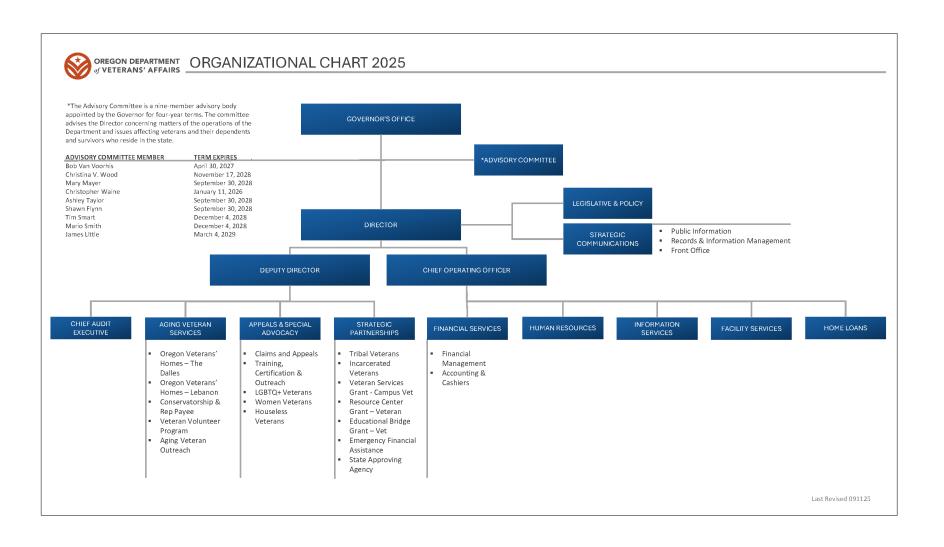

Dr Hakir Comit Danil

Independent Auditor's Report

The Honorable Tina Kotek Governor of Oregon

Dr. Nakeia Daniels, Director Oregon Department of Veterans' Affairs

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Veterans' Loan Program, an enterprise fund of the State of Oregon, Department of Veterans' Affairs (department), as of and for the year ended June 30, 2025, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Veterans' Loan Program, as of June 30, 2025, and the changes in its financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the department, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Veterans' Loan Program and do not purport to, and do not, present fairly the financial position of the State of Oregon or department, as of June 30, 2025, the changes in its financial position or its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and the disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the department's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

Office of the Secretary of State, audits Division

In accordance with Government Auditing Standards, we have also issue our report dated October 20, 2025, on our consideration of the department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the department's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the department's internal control over financial reporting and compliance.

State of Oregon

October 20, 2025

State of Oregon Oregon Department of Veterans' Affairs Veterans' Loan Program

Management's Discussion and Analysis

This section of the Oregon Department of Veterans' Affairs' (the "Department") Loan Program Annual Financial Report presents our discussion and analysis of financial performance for the Veterans' Loan Program Proprietary Fund during the fiscal year ended June 30, 2025. The selected financial data presented was derived primarily from the financial statements of the Veterans' Loan Program, which have been audited.

FINANCIAL HIGHLIGHTS

	(In Millions)				Cha	inge
		2025	<u>2024</u>	<u>(In</u>	Millions)	<u>Percentage</u>
Net Position	\$	134.1	\$ 135.5	\$	(1.4)	-1.03%
Revenues	\$	21.9	\$ 20.9	\$	1.0	4.78%
Expenses	\$	24.0	\$ 21.9	\$	2.1	9.59%
General Obligation Bond						
Debt (par value)	\$	428.5	\$ 414.9	\$	13.6	3.28%
Mortgage Loan Originations	\$	62.9	\$ 82.2	\$	(19.3)	-23.48%

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Veterans' Loan Program's basic financial statements. The basic financial statements include proprietary fund financial statements and notes to the financial statements. The Veterans' Loan Program's basic financial statements do not include department-wide financial statements since only the Veterans' Loan Program proprietary fund is audited within this Annual Financial Report. The Department does have a minimal portion of governmental funds that are included in the State of Oregon Annual Comprehensive Financial Report. Those reports are located respectively at http://www.oregon.gov/das/Financial/Acctng/Pages/Pub.aspx and https://www.oregon.gov/odva/connect/pages/reports.aspx.

- The Veterans' Loan Program's proprietary fund financial statements include a major enterprise fund, which operates similarly to business activities and follow an accrual basis of accounting.
- The notes to the financial statements provide additional information essential to a full understanding of the data provided in the Veterans' Loan Program's proprietary fund financial statements.

OVERVIEW OF THE PROPRIETARY FUND FINANCIAL POSITION & OPERATIONS

Assets

Total assets at June 30, 2025 were approximately \$608.6 million, an increase of \$19.2 million from June 30, 2024. The change in assets consists primarily of a \$20 million increase in mortgage loans receivable.

Liabilities

Total liabilities at June 30, 2025, were \$468.7 million, an increase of \$21.4 million from June 30, 2024. The change in liabilities consists primarily of an increase of \$13.7 million in net bonds payable and an increase of \$5 million in excess interest and arbitrage rebate payable.

Statement of Net Position

The Veterans' Loan Program's proprietary fund financial position and operations for the past two years are summarized below based on the information included in the basic financial statements.

Veterans' Loan Program - Proprietary Fund Statement of Net Position

		Business T	уp	e Activity	_		
		2025		2024		Change	%Change
Assets:

Restricted for OPEB		166,120		161,810		4,310	2.66%
Unrestricted		125,421,897		128,365,309		(2,943,412)	-2.29%
Total Net Position		134,144,624	\$		\$	(1,306,623)	-0.96%

Loans Receivable

Total mortgages and other loans receivable increased by \$20.4 million in fiscal year 2025. This increase was primarily due to an increase in loan origination volume.

Bonds Payable

Bonds Payable increased by \$13.6 million (par value) from June 30, 2024 to June 30, 2025. During fiscal year 2025, the Department issued approximately \$49.7 million and refunded approximately \$11 million in general obligation bonds. For additional details, see the Debt Administration section of the Management's Discussion and Analysis.

Net Position

Total Net Position decreased by approximately \$1.3 million in fiscal year 2025. Loans to borrowers decreased in FY2025 resulting in less revenue for the agency. Bond interest and salary increases

contributed to higher expenses in FY2025. This operating combination resulted in a decrease of net position.

Change in Accounting Principal

For fiscal year 2025, the State implemented two new accounting standards issued by the Governmental Accounting Standards Board (GASB). The most notable implementation was GASB Statement No. 101 which added additional leave types, sick and Governor's leave, to the compensated absence liability. This increased the beginning balance of the compensated absences liability by \$406,483. The second standard, GASB Statement No. 102, Certain Risk Disclosures, is not applicable to the State and ODVA. These are described further in Note 1.

The results of operations for the Veterans' Loan Program's proprietary fund are presented below:

Revenues and Expenses

The Veterans' Loan Program's revenue is generated principally from interest earned on mortgage loans and investment income. In fiscal year 2025, revenue generated through the Veterans' Loan Program totaled approximately \$21.9 million, of which approximately \$20 million, or 92.5% is from interest income earned on loans and investments. Expenses of the Veterans' Loan Program consist primarily of interest expense on debt incurred to fund lending programs and operational expenses. The total expenses for Veterans' Loan Program activities totaled approximately \$24 million, of which approximately \$12.3 million, or 51% is bond interest expense and \$7.2 million, or 30%, is salaries and other payroll expenses.

Change in Net Position

The change in net position for the year ended June 30, 2025 resulted in a decrease of approximately \$1.3 million.

Debt Administration

The Oregon Constitution and Oregon Revised Statutes permit general obligation bonds to be issued on the Department's behalf to provide funds for home loans to eligible Oregon veterans.

The Department had approximately \$428.5 million (par value) in outstanding general obligation bonds as of June 30, 2025. During fiscal year 2025, approximately \$49.7 million in new general obligation bonds were issued and \$11 million in bonds were refunded.

Information on the Department's long-term debt can be found in the Notes to the Financial Statements (Note 5 and 6).

Requests for Information

This financial report is designed to provide a general overview of the Oregon Department of Veterans' Affairs' finances for all those with an interest in the Department's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, Oregon Department of Veterans' Affairs, 700 Summer Street N.E., Salem, Oregon 97301.

Oregon Department of Veterans' Affairs Veterans' Loan Program **Proprietary Fund Notes to the Financial Statements** June 30, 2025

1. Summary of Significant Accounting Policies

A. Reporting Entity

The Department is a part of the State of Oregon reporting entity. The Department operates under the provisions of the Oregon Constitution Article XI-A and primarily Oregon Revised Statutes (ORS) chapters 406, 407, and 408. The Department's Director is appointed by the Governor with input from the Advisory Committee and is subject to confirmation by the Oregon Senate. The Director must be a veteran chosen on the basis of his or her executive and administrative ability. The Advisory Committee is a nine-member board, appointed by the Governor that acts in an advisory capacity to the Director concerning all matters upon which the Director requests counsel. The State Legislature has significant ability to influence funding, approve the Department's budget, and pass laws governing the Department.

In 1944 Oregon voters approved a constitutional amendment that authorized the creation of a Veterans' home and farm loan program. A year later the Department was established to administer this program. The Department's home loan program (Veterans' Loan Program) provides home purchase and home improvement loans at favorable interest rates to eligible veterans, within the limitations set forth in Oregon's Constitution and applicable laws. The Veterans' Loan Program is operated through earnings on program loans, which are financed through the sale of tax-exempt general obligation bonds. These bonds are then retired through principal and interest payments received from borrowers and earnings from invested funds.

The Veterans' Loan Program is classified as a proprietary fund. The basic financial statements and notes presented herein include only the proprietary fund activities of the Veterans' Loan Program.

B. Measurement Focus of Accounting and Basis of Presentation

The accounts of the Department are organized on the basis of funds. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording assets, liabilities, and equities, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations or restrictions.

The Veterans' Loan Program is accounted for as a Proprietary fund. The focus of Proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows, which is similar to private-sector business. Proprietary funds are presented using the accrual basis of accounting and the flow of economic resources measurement focus. Under the accrual basis of accounting, revenues are recognized when they are earned and expenses are recognized when the liabilities are incurred.

The basic financial statements and notes presented have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

C. Budgetary Process

The Oregon Legislature approves budgets for a biennial period. Operating expenses are subject to limitation and certain bond-related expenses are subject to administrative limitation. Both types of limitations lapse at the end of the biennium. For budgetary purposes, these transactions are recognized when received or paid in cash as opposed to when they are susceptible to accrual.

D. Cash and Cash Equivalents

Cash and Cash Equivalents include: cash on hand, cash in the Oregon Short-Term Fund (OSTF), cash deposits held by the State's fiscal agent for payment of matured bonds and coupons, and cash deposits held by the agency's loan cancellation life insurance carrier. All monies held in the OSTF are considered to be cash equivalents, which is a cash and investment pool having characteristics of a demand deposit account.

E. Receivables

Receivables are shown net of an allowance for uncollectible accounts. Receivables included are amounts due that represent revenues earned or accrued in the current period. Types included in this classification relate to interest, mortgage loans receivable, loan cancellation life insurance premiums, and other miscellaneous receivables.

F. Loan Cancellation Life Insurance

The Department offers Loan Cancellation Life Insurance (LCLI) to approved borrowers and their spouses through a contract with a private insurance company. Historically subsidized from the Oregon War Veterans' Fund (a dedicated fund of the Department created under Article XI-A of the Oregon Constitution), the Department collects the premiums from borrowers and remits collected premiums, less an administrative fee, to the private insurance company. Upon the death of an insured person, either the account balance will be paid in full, or the amount of insurance in force will be paid and applied toward the account balance.

The Loan Cancellation Life Insurance Contingency Fund is a special fund consisting of amounts generated by the group policy and interest earned on the fund balance. Monies in the LCLI account are held and controlled by the insurance carrier during the contract period. The fund stabilizes rate experience developed under the group loan cancellation life insurance policy. An annual accounting of premiums, claims, administrative costs, and interest earnings is provided by the insurance carrier for the fund at June 30.

G. Real Estate Owned

Properties acquired through foreclosure proceedings or by acceptance of deeds in lieu of foreclosure are recorded at cost. Cost is defined as the outstanding principal balance of the mortgage loan or contract on the date of foreclosure.

H. Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond June 30 are recorded as prepaid items. In proprietary funds, prepaid items are accounted for using the consumption method. Prepaid expenses consist of postage on hand at year-end and conference travel.

I. Capital Assets

Capital assets are recorded at cost. Depreciation is calculated using the straight-line method. Gain or loss on the sale of an asset is determined by taking the difference between the carrying value (cost less depreciation) and the sale price. The Veterans' Building is depreciated over its useful life (50 years). Buildingrelated assets are capitalized and then depreciated over the remaining estimated life of the building. Furniture, equipment, depreciable works of art, land improvements, and data processing hardware and software costing \$5,000 or more are capitalized and then depreciated over a useful life of five years (10 years for art work and land improvements).

J. Compensated Absences Payable

Employees accumulate earned but unused vacation and sick leave benefits. Accumulated vacation, sick leave and compensatory time (comp time) leave is recorded as an expense and a liability of those funds as the benefits accrue to the employees.

K. Excess Interest and Arbitrage Rebate Payable

The Department recognizes a liability in its financial records for any excess mortgage interest and investment earnings arising from the use of tax-exempt bond proceeds. The Department records the excess mortgage interest and investment earnings as a reduction of revenue.

L. Net Investment in Capital Assets

This is the Capital Asset component of Net Position (equity) net of accumulated depreciation.

M. Operating Revenues and Expenses

Operating revenues include interest and fees on program loans, as well as earnings on cash and investments. Administrative expenses, depreciation related to capital assets, and bond program related expenses are considered operating expenses. All revenues and expenses not meeting this definition would be reported as non-operating revenues and expenses.

N. Bond Expenses

Bond premiums and discounts associated with a particular bond issue are amortized over the life of the bond issue using the bonds outstanding method of amortization. These expenses are charged or credited to interest expense.

Miscellaneous bond expenses are primarily recorded as expenses when incurred. Included in bond expenses are fees related to variable rate demand bonds, expenses of the matured bond and coupon account with the State's Fiscal Agent, and bond attorney fees.

Expenses of variable rate demand bonds include Standby Bond Purchase Agreement commitment fees and remarketing agent fees. These fees are payable quarterly in arrears.

O. Changes in Accounting Principle

GASB Statement No. 101, Compensated Absences, which requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not vet paid in cash or settled through noncash means. Compensated Absence beginning balances were adjusted in the amount of \$460,483 due to this change in accounting principle.

GASB Statement No. 102, Certain Risk Disclosures, which defines a "concentration" as a lack of diversity to an aspect of a significant inflow of resources or outflow of resources. A "constraint" is a limitation imposed on a government by an external party or by formal action of the government's highest level of decision-making authority. ODVA has a diverse universe of revenue and expenditure streams that would suggest minimal constraints and concentrations. GASB 102 is not applicable to ODVA.

2. Deposits and Investments

Deposits

Cash and cash equivalents for the Veterans' Loan Program as of June 30, 2025, are included in the table below:

	Total	
	June 30, 2025	
Book Balance - Cash and Cash Equivalents		
Current unrestricted	\$	92,963,428
Current restricted		4,539,847
Noncurrent restricted		62,285,866
Combined Book Balance	\$	159,789,141
Bank Balance - Cash and Cash Equivalents	\$	162,451,579

As of June 30, 2025, the Veterans' Loan Program had a combined total of \$149,953,540 held in demand accounts with the State Treasurer and invested in the Oregon Short-Term Fund ("OSTF"). The Oregon State Treasury ("OST") manages the OSTF, which is an external cash and investment pool that is available for use by all state funds (involuntary participation) and eligible local governments. The State does not have a formal policy regarding custodial credit risk for cash deposits. However, banking regulations and Oregon law establish the insurance and collateral requirements for deposits in the OSTF.

Additional information about the OSTF, including its audited financial statements, can be found at: https://www.oregon.gov/treasury/public-financial-services/oregon-short-term-funds/pages/default.aspx or by writing to the Oregon State Treasury, 867 Hawthorne Ave SE, Salem, OR 97301-5241.

In addition, the Department held \$12,498,039 with an insurance carrier as a reserve for loan cancellation life insurance. These monies are uncollateralized and are not insured under FDIC protection. Department is required to keep on deposit an amount not less than the annual premium with additional insurance charges becoming effective if the balance drops below 200% of annual premiums. At June 30, 2025, the Department estimated that required balance to be \$192,000. That amount is included as Cash and Cash Equivalents – Noncurrent, Restricted. The remainder of the balance at the insurance carrier is unrestricted and is included in Cash and Cash Equivalents – Current. For additional information on these monies see Note 1 "Loan Cancellation Life Insurance."

Investments

The Department's investment policy allows investment in the Oregon Intermediate Term Pool ("OITP") as well as other investments. However, the Department has chosen to only invest in OITP, an external investment pool managed by OST. OITP is "not rated" as an investment and not registered with the U.S. Securities and Exchange Commission as an investment company, Additional information about OITP. including its audited financial statements, can be found at:

https://www.oregon.gov/treasury/invested-for-oregon/Pages/Oregon-Intermediate-Term-Investments.aspx

The State's investment policies are governed by Oregon Revised Statutes and the Oregon Investment Council (the "Council"). The State Treasurer is the investment officer for the Council and is responsible for all funds entrusted to OST. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill and caution. Investments in OITP are further

governed by guidelines approved by the Council, establishing diversification percentages and specifying the types and maturities of investments.

OITP measures its investments at fair value in accordance with standards, the Department reports its share based on the fair value provided by OITP.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. OST Investment staff manages this risk by limiting the duration of investments held by the Pool. The portfolio guidelines require that the portfolio maintain a modified duration, a measure of interest rate risk, of +/- 20% (percent) relative to the duration of the Bloomberg Intermediate U.S. Government/Credit Total Return Index (Benchmark). The duration for OITP at June 30, 2025, was 3.78 years.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. OITP guidelines require that all investments meet minimum ratings requirements at the time of purchase.

Restricted Assets

Included in Cash and Cash Equivalents are amounts designated as restricted. Restrictions on the Department's cash can arise from Oregon's constitutional provision or enabling legislation, federal tax law relating to bond proceeds, bond covenants, deposit liabilities and from certain other contractual arrangements. The primary purpose of the restricted assets will be to meet upcoming debt service requirements and other restricted purposes. As of June 30, 2025, the Veterans' Loan Program had restricted assets of \$66,825,713.

Securities Lending

In accordance with State of Oregon investment policies, state agencies may participate in securities lending. Currently, the Department does not have any of its own securities lending activity. However, the Department received an allocated share related to the OSTF securities lending activity. As of June 30, 2025, there were no securities lending activities to disclose for the OITP.

Securities lending information related to the Department's Loan Program is provided in the following table:

	OSTF
Securities Lending Cash and Noncash Collateral	\$8,058,030.00
Securities on Loan	\$7,899,001.00
Investments Purchased with Cash Collateral	\$317,473.00
Securities on Loan:	94.77%
U.S. Agency	5.23%
Domestic Fixed Income	100.00%

Additional information about OSTF and OITP securities lending can be found in the audited financial statements. See links previously provided above.

3. Mortgage Loans Receivable

Mortgage loans receivable are secured by real property, which is repossessed if the receivable becomes uncollectible. Most loan agreements made during the period from May 1971 through December 1991 contain a provision authorizing the Department to adjust the interest rate. Loan agreements (excluding contracts) made subsequent to December 1991 have fixed interest rates.

The loan receivable portfolio at June 30, 2025, is approximately \$411 million. All mortgaged property is located within Oregon. The Department uses the allowance method to estimate uncollectible mortgage loans receivable. The allowance is periodically adjusted by management to accommodate changes in economic conditions, nonperforming assets, historical loss experience, and other conditions that may affect the ultimate collectability of the mortgage loans. In 2025 the Department determined the balance of the allowance account to be in line with potential losses for the remaining loan portfolio. Accordingly, the account balance at June 30, 2025, is approximately \$0 dollars. The balance of the allowance account represents approximately 0.00 percent of gross loans receivable.

The following table details the mortgage loans receivable and allowance accounts as disclosed on the Statement of Net Position for June 30, 2025.

	June 30, 2025			
	 Current	Noncurrent	Total	
Loans Receivable	\$ 10,873,787	\$ 400,107,219	\$ 410,981,006	
Less: Allowance for Principal Losses	-	-	-	
Net Loans Receivable	\$ 10,873,787	\$ 400,107,219	\$ 410,981,006	

Included in mortgage loans receivable are loans that will not amortize at their current monthly payment amounts. These loans became non-amortizing primarily through borrowers' choosing to extend the repayment term of their loans in lieu of accepting increased monthly principal and interest installments resulting from loan interest rate increases. The option to allow a borrower to extend the repayment life of the loan rather than accept an increase in the monthly principal and interest installment amount was the result of legal action brought against the Department by the Associated Oregon Veterans in 1985. As of June 30, 2025, there were 19 non-amortizing accounts with an aggregate principal balance of approximately \$2.43 million. This represents approximately 0.59 percent of the total net loans receivable.

Troubled Debt Restructurings

The Department makes every reasonable attempt to keep a borrower in the home purchased under the Veterans' Loan Program. In order to avoid foreclosure, one method of working with borrowers is to temporarily reduce loan payments for borrowers. This is allowed under ORS 407.095. During the year ended June 30, 2025, the Department had no borrowers that required this relief.

Mortgage Insurance

The Department requires borrowers to obtain private mortgage insurance on loans made subsequent to December 1991 if the original loan amount exceeds 80% of the lesser of the appraised value of the property or the purchase price. As of June 30, 2025, the Department had 190 insured accounts with seven private mortgage insurers totaling approximately \$83.2 million. The majority of insured accounts are with Mortgage Guaranty Insurance Corporation (MGIC) with 78%. As of June 30, 2025, the Moody's ratings for MGIC was "A2".

Real Estate Owned

The Department has no properties acquired through foreclosure or acceptance of deeds in lieu of foreclosure as of June 30, 2025.

4. Capital Assets

The following table provides detail on the balances and activities of the Veterans' Loan Program capital assets for the year ended June 30, 2025:

	Beginning			Ending
	<u>Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance</u>
Capital Assets Not Being Depreciated:				
Construction in Progress	\$ 1,533,757	\$ 1,844,527	\$ -	\$ 3,378,285
Works of Art & Historical Treasures	\$ 627,021	\$ -	\$ -	\$ 627,021
Total Capital Assets Not Being Depreciated	2,160,779	1,844,527	-	4,005,306

Less Accumulated Depreciation:				
Buildings, Property & Equipment	(6,562,096)	(187,137)		(6,749,233)
Total Accumulated Depreciation	(6,562,096)	(187,137)		(6,749,233)
Total Capital Assets Being Depreciated, Net	4,680,751	(187,137)	-	4,493,614
Total Capital Assets Being Amortized, Net	\$ 82,598	\$ (24,912)	\$ -	\$ 57,686
Total Capital Assets, Net	\$ 6,924,128	\$ 1,632,479	\$ -	\$ 8,556,607

Depreciation and Amortization expense at June 30, 2025 was \$212,048.

5. Bonds Payable and Debt Service

The table below provides a summary of general obligation bond transactions of the Department for the fiscal year ended June 30, 2025:

Bonds Payable <i>(Par)</i> at June 30, 2024	\$ 414,880,000
Bonds Issued	49,715,000
Bonds Retired	(36,060,000)
Bonds Payable <i>(Par)</i> at June 30, 2025	\$ 428,535,000

Shown below are the components of net bonds payable as disclosed on the Statement of Net Position for June 30, 2025:

	 Current	 Noncurrent	 Total
Bonds Payable (Par)	\$ 15,130,000	\$ 413,405,000	\$ 428,535,000
Premium on Bonds Sold	 423,820	 6,937,581	 7,361,401
Net Bonds Payable	\$ 15,553,820	\$ 420,342,581	\$ 435,896,401

The following schedule summarizes future debt service requirements to maturity as of June 30, 2025:

Fiscal Year	 Principal	Interest	 Total
2026	15,130,000	15,599,685	\$ 30,729,685
2027	15,645,000	15,245,403	\$ 30,890,403
2028	18,720,000	14,816,286	\$ 33,536,286
2029	18,860,000	14,324,780	\$ 33,184,780
2030	16,555,000	13,775,696	\$ 30,330,696
2031-2035	82,690,000	62,229,952	\$ 144,919,952
2036-2040	92,245,000	46,918,696	\$ 139,163,696
2041-2045	74,415,000	30,922,321	\$ 105,337,321
2046-2050	54,415,000	17,559,211	\$ 71,974,211
2051-2055	39,860,000	4,884,822	\$ 44,744,822
2056-2060	 -	_	\$
TOTAL	\$ 428,535,000	\$ 236,276,853	\$ 664,811,853

Shown below are the outstanding bond issues and their final maturities (in fiscal years) as of June 30, 2025:

		Origi Coupon				Final
Series	Dated	From	To	Issued	Outstanding	Maturity
93 (2014 G)	3-Dec-14	0.7		\$25,965,000	\$16,825,000	2040
95 (2015 P)	19-Nov-15	**		25,140,000	19,755,000	2037
96 (2015 Q)	19-Nov-15	2	5.00%	34,215,000	350,000	2046
97A (2016 J)	7-Dec-16	0.85	3.55%	22,310,000	8,630,000	2031
97B (2016 K)	7-Dec-16	3.9	4.05%	17,500,000	2,040,000	2037

^{**} Interest rates are adjusted weekly based on the weekly rate determined by the Remarketing Agent, not to exceed 12%. The interest rate at the end of the fiscal year was 2.1% for Series 95.

Interest rates are adjusted daily based on the daily rate determined by the Remarketing Agent, not to exceed 12%. The interest rate at the end of the fiscal year was 3.60% for Series 98B, Series 105B, and Series 106C. The rate was 4.00% for Series 110.

On May 22, 2025, the Department issued \$49,715,000 (par value) of fixed rate General Obligation Bonds. The 2025 Series H Bonds, in the amount of \$11,065,000, were issued to refund certain series of outstanding XI-A Bonds issued by the Department. The 2025 Series I Bonds, in the amount of \$38,650,000 were issued to provide funding to the Department to conduct the Oregon Veterans' Loan program.

6. Demand Bonds

Included in long-term debt at June 30, 2025 are the following State of Oregon, General Obligation, Veterans' Welfare Bonds (Variable Rate), along with selected terms of their Standby Bond Purchase Agreements ("SBPAs"):

Series	Outstanding Bond Principal Amount	Liquidity Provider	Scheduled Termination Date	Maximum Interest Commitment	Commitment Fee
Series 95 (2015 Series P)	\$19,755,000	U.S. Bank National Association	5/17/2027	34 days/12%	0.31%
Series 98B (2017 Series O)	\$15,800,000	U.S. Bank National Association	4/8/2030	34 days/12%	0.32%
Series 105B (2020 Series J)	\$11,565,000	U.S. Bank National Association	5/17/2027	34 days/12%	0.31%
Series 106C (2020 Series M)	\$11,435,000	U.S. Bank National Association	5/17/2027	34 days/12%	0.31%
Series 110 (2022 Series E)	\$11,000,000	JPMorgan Chase Bank, N.A.	5/15/2029	34 days/12%	0.28%

These bonds are general obligations of the State of Oregon and are payable from revenues and reserves of the Veterans' Loan Program. The bondholder may tender these bonds on specified dates at a price equal to principal plus accrued interest.

The Department's Remarketing Agent is authorized to use their best effort to sell the repurchased bonds at face value by adjusting the interest rate on a daily or weekly basis based on their applicable mode. The designated Remarketing Agent for such bonds will determine the interest rate borne by each series of bonds. The Department pays its designated Remarketing Agent a remarketing fee for this service:

Series	Outstanding Bond Principal Amount	Designated Remarketing Agent	Remarketing Mode	Remarketing Fee
Series 95		U.S. Bank		
(2015 Series P)	\$19,755,000	National Association	Weekly	0.05%
Series 98B		U.S. Bank		
(2017 Series O)	\$15,800,000	National Association	Daily	0.05%
Series 105B		U.S. Bank		
(2020 Series J)	\$11,565,000	National Association	Daily	0.05%
Series 106C		U.S. Bank		
(2020 Series M)	\$11,435,000	National Association	Daily	0.05%
Series 110	044 000 000	JPMorgan Chase	D 1	0.050/
(2022 Series E)	\$11,000,000	Bank, Ň.A.	Daily	0.05%

In the event the bonds cannot be remarketed, they will be purchased as specified by the respective SBPA. Under the SBPAs for Series 95, 98B, 105B,106C & 110 ("Series 95, 98B, 105B,106C & 110

SBPAs"), U.S. Bank National Association & JP Morgan Chase Bank, will commit to purchase any Series 95, 98B, 105B, 106C & 110 unremarketed bonds, subject to certain conditions set forth in the SBPAs.

If a tender advance did occur under the Series 95, 98B, 105B,106C & 110 SBPAs, it would accrue interest at the bank's base rate (either the prime lending rate plus 1%, the federal funds rate plus 2%, the SIFMA rate plus 1% or 7% for the time period 31 days after the purchase date and thereafter, whichever is higher) for the time period up to 30 days; at the bank's base rate plus 1% for the time period covering 31 days up to 90 days; at the bank's base rate plus 1.5% for the time period thereafter. If the tender advance is in default, interest would accrue at the bank's base rate plus 3%. Interest on tender advances must generally be repaid before the principal portion of a tender advance is repaid. In most cases, tender advances are required to be paid off on the earliest to occur of (a) the date the applicable bonds are paid in full; (b) the conversion date of all or a portion of the applicable bonds to a fixed rate, an indexed rate or a non-covered interest rate; or (c) the effective date of delivery of a substitute alternative liquidity facility. Tendered bonds that are unremarketed by the 91st day after the purchase date of the tender advance must be paid in full over a four-year period in eight equal (or nearly equal) semi-annual installments, unless and until the bonds are remarketed or redeemed. If repayment of any tender advances does not occur within the specified timeframes contained in the Series 95, 98B, 105B,106C & 110 SBPAs, a default would have occurred.

No tender advances or draws have been necessary to purchase unremarketed bonds under the Series 95, 98B, 105B, 106C & 110 SBPAs for fiscal year 2025. Therefore, no tender advances or draws were outstanding as of June 30, 2025.

Each bank's present purchase commitment consists of the payment of the purchase price equal to the principal and accrued interest, if any, on the bonds of the applicable series tendered for purchase and not remarketed on the purchase date. The purchase commitment of each bank may be reduced from time to time upon occurrence of certain events specified in the SBPAs. The Department is required to pay a commitment fee, which is payable quarterly in arrears.

7. Derivative Instruments – Interest Rate Swaps

The Department has interest rate swaps in connection with its Loan Program General Obligation Bonds. 2015 Series P (Veterans' Welfare Bonds Series 95) (the "Series 95 swap") and its Loan Program General Obligation Bonds, 2020 Series J (Veterans' Welfare Bonds Series 105B) and 2020 Series M (Veterans' Welfare Bonds Series 106C) (the "Series 105B & 106C swap") and 2022 Series E (Veterans' Welfare Bonds Series 110). The swaps and underlying floating-rate bonds together create "synthetic" fixed-rate debt.

The Department did not have any maturities of derivatives during fiscal year 2025. During the fiscal year the fair value of the Series 95 swap decreased by \$657,395. The fair value of the Series 105B & 106C swap decreased by \$431,774. The fair value of Series 110 increased by \$586,307.

The fair value balance of the interest rate swaps is reported as a hedging derivative and deferred inflow of resources on the Statement of Net Position. The fair value of the swaps as of June 30, 2025 are positive. The fair value of the interest rate swaps is estimated using the zero-coupon method. This method calculates the future payments required by the swaps, using the forward interest rates implied by the yield curve for the floating leg of the swaps and the fixed rate of the swaps for the fixed leg of the swaps. These payments are then discounted using the spot rates implied by the current yield curve for a hypothetical zero-coupon rate bond due on the date of each future net settlement payment on the swaps. The fair value is categorized as Level 2 within the fair value hierarchy – which includes quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable.

Hedging Instruments

On June 30, 2025, the Department has the following derivative instruments outstanding:

Туре	Objective	Notional Amount	Effective Date	Terminatio n Date	Terms	Fair Value
Pay – fixed interest rate swap	Hedge of changes in cash flows on the Series 95 bonds, specifically related to changes in municipal taxexempt interest rates	\$19,755,000	12/1/2020	12/1/2036	Pay 1.0115%; Receive 100% USD- SIFMA* Municipal Swap Index	\$ 2,493,018
Pay – fixed interest rate swap	Hedge of changes in cash flows on the Series 105B & 106C bonds, specifically related to changes in municipal taxexempt interest rates	\$23,000,000	6/1/2021	12/1/2044	Pay 1.165%; Receive 100% USD- SIFMA* Municipal Swap Index**	\$ 4,396,331
Pay – fixed interest rate swap	Hedge of changes in cash flows on the Series 110 bonds, specifically related to changes in municipal taxexempt interest rates	\$11,000,000	8/10/2022	6/1/2045	Pay 2.524%; Receive 70% + 0.08% SOFR Index***	\$ 752,936

Securities Industry and Financial Markets Association (resets weekly)

The Series 95 swap was structured with the option where the Department has the right to "cancel" or terminate the swap at par on the first day of each June and December, in whole or in part commencing June 1, 2025. The Department may also terminate the Series 105B & 106C swap on the first day of each June and December commencing on June 1, 2029. The department may terminate the Series 110 swap on the first day of each June or December beginning on June 1, 2031. These options enhance asset/liability matching and provide flexibility to adjust the outstanding notional amounts of the swaps over time. The use of derivatives, including interest rate swaps, involves certain risks. These risks include, but are not limited to:

Receive 100% SIFMA from July 1, 2021 until June 1, 2029 then 70% of 1-month IBOR (Inter Bank Offered Rate) from July 1, 2029 until the termination date.

^{***} Receive 70% of USD-SOFR-Compound + .08% (Secured Overnight Financing Rate) until the termination date.

Credit Risk – is the risk that a counterparty will not fulfill its obligations. The Department's Series 95 swap is with Bank of America, N.A. (the "Series 95 swap counterparty"), which is rated A+ and Aa2 by S&P and Moody's respectively. The Series 105B, 106C & 110 swap is with The Bank of New York Mellon (the *"Series 105B, 106C & 110 swap counterparty"*), which is rated AA- and Aa1 by S&P and Moody's respectively.

If the Series 95 swap counterparty's credit rating falls below certain levels, the Series 95 swap counterparty is required to post collateral to the lower of the following ratings:

S&P Rating	Moody's Rating	Threshold	Minimum Transfer Amount
AA- or higher	Aa3 or higher	Infinite	\$ 1,000,000
A+	A1	\$ 10,000,000	\$ 1,000,000
A	A2	\$ 5,000,000	\$ 1,000,000
A-	A3	\$ 2,500,000	\$ 1,000,000
BBB+ or below or not rated	Baa1 or below or not rated	\$ -	\$100,000*

^{*}Minimum Transfer Amount shall be \$0 if, and for so long as, neither Moody's nor S&P rate the long-term unsecured, unsubordinated, debt securities of Bank of America, N.A.

If the Series 105B, 106C & 110 swap counterparty's credit rating falls below certain levels, the Series 105B, 106C & 110 swap counterparty is required to post collateral to the lower of the following ratings:

S&P Rating	Moody's Rating	Threshold	Minimum Transfer Amount
AA- or higher	Aa3 or higher	Infinite	\$ -
A+	A1	\$ 10,000,000	\$ 1,000,000
А	A2	\$ 5,000,000	\$ 1,000,000
A-	A3	\$ 2,500,000	\$ 1,000,000
BBB+ or below or not rated	Baa1 or below or not rated	\$ -	\$100,000*

^{*}Minimum Transfer Amount shall be \$0 if, and for so long as, neither Moody's nor S&P rate the long-term unsecured, unsubordinated, debt securities of The Bank of New York Mellon.

Since the fair value of the swaps as of June 30, 2025, are positive, but the threshold applicable to the ratings by S&P and Moody's has not been exceeded, the Series 95 swap counterparty and the Series 105B, 106C and 110 swap counterparty are not required to post collateral.

According to the State of Oregon Swap Policy, the State may require collateralization or other credit enhancements to secure any or all swap payment obligations, where the Oregon State Treasurer determines such security is necessary to limit the credit risk or otherwise protect the interests of the State.

Interest Rate Risk – is the risk that changes in interest rates will adversely affect the fair values of a government's cash flows. The Department is exposed to interest rate risk on its pay-fixed, receive variable interest rate swaps. As the SIFMA Municipal Swap Index rate decreases, the Department's net payments on the swaps increases.

Basis Risk – is the risk that arises when variable rates of a hedging derivative instrument and a hedged item are based on different reference rates. The variable-rate debt hedged by the Department's interest rate swaps are variable-rate demand obligation ("VRDO") bonds. The Series 95 VRDO bonds are remarketed weekly. The Series 105B, Series 106C and Series 110 VRDO bonds are remarketed daily. The Department is exposed to basis risk on its pay-fixed interest rate swaps that are hedging the VRDO bonds, because the variable-rate payments received by the Department are based on a rate other than the interest rates the Department pays on the VRDO bonds. At June 30, 2025, the interest rate on the Department's Series 95 VRDO bonds is 2.10%, the interest rate on the Series 105B and Series 106C VRDO bonds is 3.60% and the interest rate on the Series 110 VRDO bonds is 4.00% while the SIFMA Municipal Swap Index rate is 1.92%.

Termination Risk – is the risk that a hedging derivative instrument's unscheduled end will affect a government's asset and liability strategy or will present the government with potentially significant unscheduled termination payments to the counterparty. The Department or its counterparties may terminate the interest rate swap if the other party fails to perform under the terms of the respective contract.

Cash Flows

As interest rates fluctuate, variable rate bond interest payments and net swap payments will differ between the fixed payments paid to the counterparties and the variable rate paid to the Department. Using interest rates as of June 30, 2025, debt service requirements of the variable rate debt (on the notional amount of the swaps) and net swap payments are as follows:

Fiscal		Interest Rate Swap
Year	Principal	Interest (Net) Total
2026	-	1,548,170 (1,626,217) (78,04
2027	-	1,548,170 (1,626,217) (78,04
2028	1,895,000	1,533,707 (1,583,586) 1,845,12
2029	1,940,000	1,478,843 (1,529,871) 1,888,97
2030	1,990,000	1,428,992 (1,477,875) 1,941,11
2031-2035	12,410,000	6,310,220 (6,470,895) 12,249,32
2036-2040	19,505,000	3,894,131 (3,694,456) 19,704,67
2041-2045	16,015,000	1,149,729 (921,964) 16,242,76
TOTAL	\$ 53,755,000	\$ <u>18,891,962</u> \$ <u>(18,931,081)</u> \$ <u>53,715,88</u>

Contingent Features

If the State of Oregon's unsecured, unenhanced general obligation debt rating reaches certain levels, the Department is required to post collateral to the lower of the following ratings:

Moody's Rating	Threshold	Minimum Transfer Amount (Series 95)	Minimum Transfer Amount (Series 105B, 106C & 110)		
A3 or higher	Infinite	\$100,000	\$ -		
Baa1 or below	\$ -	\$100,000*	\$100,000*		
\ 	A3 or higher Baa1	A3 or higher Infinite Baa1 \$ -	A3 or higher Infinite \$100,000 Baa1 \$ - \$100,000*		

^{*}Minimum Transfer Amount shall be \$0 if, and for so long as, neither Moody's nor S&P rate the applicable Department's debt.

8. Changes in Long Term Liabilities

The following table provides detail on the long-term liability activity as of June 30, 2025:

	Beginning			Ending	Due Within
	<u>Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance</u>	One Year
Bond Principal	\$ 414,880,000	\$ 49,715,000	\$ (36,060,000)	\$ 428,535,000	
Bond Premium	7,297,084	1,260,877	(1,196,560)	7,361,401	
Bond Discount	 	-			
Total Bonds Payable	422,177,084	50,975,877	(37,256,560)	435,896,401	15,553,820

Total Long-Term Liabilities	\$ 441,700,665	\$ 58,493,052	\$ (38,593,260)	\$ 461,600,457	\$15,946,605
	-			-	-

^{*}Beginning balance of \$414,030 adjusted by (\$460,483)

A. Lease Obligations

ODVA recognizes long-term leased equipment as capital assets. As of June 30, 2025, no longterm leases remain.

B. Subscription-Based Information Technology (SBITA) Obligations

Subscription Based IT Arrangements which meet certain criteria must be recognized as Capital Assets. ODVA contracts with a number of software companies for necessary software to maintain efficient operations.

Year Ending	Schedule of Future SBITA Payments						
June 30,	Principal		Interest	Total			
2026	\$ 23,305	\$	1,022 \$	24,328			
2027	26,699		227	26,926			
2028	23,456			23,456			
	\$ 73,460	\$	1,250 \$	74,710			

9. Interfund Transactions

At June 30, 2025, the Veterans' Loan Program had outstanding interfund receivables of \$257,757. \$243,465 of which was due from the Veterans' Home Program for services performed by Department employees related to the operation of the Oregon Veterans' Home. The balances are shown as a "Due from Other Funds" on the Statement of Net Position.

10. Employee Retirement Plan

Plan Description

As part of the State of Oregon, the Public Employees Retirement System (PERS) provides defined benefit and defined contribution retirement plans to Loan Program employees. PERS is a cost-sharing multipleemployer defined benefit pension plan. All benefits of PERS are established by the legislature pursuant to ORS Chapters 238 and 238A. Tier One/Tier Two Retirement Benefit plan, established by ORS Chapter 238, is closed to new members hired on or after August 29, 2003. The Oregon Public Service Retirement Plan (OPSRP), established by ORS Chapter 238A, provides benefits to members hired on or after August 29, 2003. The Individual Account Program (IAP) is a defined contribution plan. Beginning January 1, 2004, all member contributions are deposited into the members IAP account. The pension plans provide pension benefits, death benefits and disability benefits.

PERS issues a publicly available Annual Comprehensive Financial Report (ACFR) that can be obtained at http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx

Contributions

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The rates in effect for the fiscal year ended June 30, 2025, for state agencies general service members were 21.24% for Tier One/Tier Two and 16.97% for OPSRP. The IAP member contribution as set by statute is 6% and is currently paid by the employee.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the State of Oregon reported a liability of \$6.33 billion for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2023. The State's proportion of the net pension liability was based on a projection of the State's longterm share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2024, the State's proportion was 28.5%, which decreased from the 30.2% proportion measured as of June 30, 2023.

As part of the State of Oregon, the Loan Program was allocated a percentage (.0242%) of the State's proportionate share in the plan as follows:

	Defe	rred Outflow	Deferred Inflow		
	of F	Resources	of Resources		
Differences between expected and actual experience	\$	317,998	\$	12,811	
Changes in assumptions		539,690		691	
Net difference between projected and actual earnings on investments		341,011		-	
Changes in proportion and differences between contributions and					
proportionate share of contributions		390,219		439,097	
Subtotal	-	1,588,919		452,600	
Net deferred Outflow (Inflow) of Resources before contributions					
subsequent to measurement date				1,136,319	
Contributions subsequent to measurement date		-			
Net Deferred Outflow (Inflow) of Resources			\$	1,136,319	

Pension-Related Debt

Prior to the formation of the PERS State and Local Government Rate Pool (SLGRP), the State and community colleges were pooled together in the State and Community College Pool (SCCP), while local government employers participated in the Local Government Rate Pool (LGRP). These two pools combined to form the SLGRP effective January 1, 2002. The unfunded actuarial liability (UAL) attributable to the SCCP at the time the SLGRP was formed is maintained separately from the SLGRP and is reduced by contributions and increased for interest charges at the assumed interest rate. The pre-SLGRP liability is essentially a debt owed to the SLGRP by the SCCP employers. The balance of the pre-SLGRP pooled liability attributable to the State is being amortized over the period ending December 31, 2027.

11. Lease Commitment and Receivables

The Department leases office space to other state agency tenants at its headquarters in Salem. The lease terms range from 2-5 years, and the ability to extend the lease varies by agreement. Generally, the agreements do not contain residual value guarantees or termination penalties. Monthly base rent follows current DAS Uniform Rent Rate which is \$2.03/sf for office space and is adjusted each biennium. Currently tenant 1 rents 8,081 sqft. And tenant 2 rents 26,498 sqft. There are no debt issuances for which the principal and interest payments are secured by these lease receipts as of June 30, 2025.

As of June 30, 2025, the total amount of lease-related revenues consisted of the following (in thousands):

Revenue Type	Am	ount
Lease Revenue	\$	873
Interest Revenue		43

12. Risk Financing

The State of Oregon administers property and casualty insurance programs covering State government through its Central Services Fund (Insurance Fund). The Insurance Fund services claims for direct physical loss or damage to State property; tort liability claims brought against the State, its officers, employees, or agents; worker's compensation; employee dishonesty; and faithful performance coverage for certain key positions required by law to be covered, and other key positions.

As a state agency, the Department participates in the Insurance Fund. The cost of servicing insurance claims and payments is covered by charging an assessment to each State entity based on its share of services provided in a prior period. The total statewide assessment for the cost of servicing is based on independent biennial actuarial forecasts and administrative expenses, less any available fund balance in the Insurance Fund from the prior biennium.

Risk Management Division of the Department of Administrative Services is the State's manager for selfinsurance, insurance and risk control. Risk Management Division investigates, evaluates and resolves claims for damage to state property and for loss or injury to the public arising out of state activities. Division staff consult with and advise state agencies on claim related loss control issues. State agencies are responsible for informing Risk Management Division in a timely fashion when they become aware that property or liability damage has occurred.

During the fiscal year ended June 30, 2025 there were no significant reductions in insurance coverage in any risk category. Also, for the past ten fiscal years (July 1,2015 through June 30, 2025) there have been no claims that exceeded the Department's property or liability coverage.

13. Subsequent Events

As of October 20, 2025, ODVA had one subsequent event. In July 2025, the Department withdrew \$6,000,000 from the Loan Cancellation Life Insurance held at The Standard Insurance.

OTHER REPORTS

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With **Government Auditing Standards**

The Honorable Tina Kotek Governor of Oregon

Dr Nakeia Daniels, Director Oregon Department of Veterans' Affairs

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the Veterans' Loan Program, an enterprise fund of the State of Oregon Department of Veterans' Affairs, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Veterans' Loan Program's basic financial statements, and have issued our report thereon dated October 20, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Oregon Department of Veterans' Affairs' (department) internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the department's internal control. Accordingly, we do not express an opinion on the effectiveness of the department's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material

> 255 Capitol St NE, Ste 180 Salem, Oregon 97310

weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

Office of the Secretary of State, audits Division

As part of obtaining reasonable assurance about whether the department's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the department's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the department's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

State of Oregon

October 20, 2025

The Oregon Department of Veterans' Affairs (ODVA) intends to comply with the Americans with Disabilities Act (The ADA), PLL01-336. The ADA provides that no qualified person with a disability shall be kept from participation in (or be denied a benefit of) the services, programs, or activities of ODVA because of that disability. For additional information or how to file a complaint, please contact ODVA's ADA coordinator at 503-373-2380.
