Voter Counts and Ballot Return Figures

The number of active voters reflects Oregon active voter data as of 11:08 AM on June 25, 2026. Previous reports referred to the number of "Eligible Voters" which was the number of active voters as of the voter registration deadline (April 28, 2026) for the May 19 primary election. Oregon's voter lists are updated daily, and changes in this number after the registration deadline are expected. Inactive voters are often identified during elections when ballots are returned as undeliverable. Previously inactive voters are also able to reactivate up until election day, and Oregonians can register to vote after the deadline for the primary, however they do not receive a ballot. This ongoing maintenance of voter records is standard practice and an important part of Oregon's election administration.
