Organizational Placement
Agency: Department of Education (ODE)
Office: Superintendent of Public Instruction

Program Description:
The Oregon Department of Education is responsible for ensuring the delivery of educational programs and opportunities to Oregon’s children from pre-school through K-12 per ORS 326. Policy is set by the State Board of Education and implemented by Department of Education staff under the leadership of the Superintendent of Public Instruction.

The State Board of Education has the responsibility for policy decisions affecting K-12 education and community colleges through its work with the Oregon Department of Education and the Oregon Department of Community Colleges and Workforce Development. By statute, the State Board of Education establishes state standards for public kindergartens and public elementary and secondary schools consistent with the statutory and gubernatorial policies; adopts administrative rules for the general governance of public kindergartens, public elementary and secondary schools, and public community colleges; prescribes required or minimum courses of study; and has regulatory responsibility to assure compliance of state and federal laws and rules for Oregon's public schools and community colleges. The Board is comprised of seven members selected by the Governor requiring Senate confirmation and serving four year terms.

The Superintendent is the administrative officer of the State Board of Education and executive head of the Oregon Department of Education per ORS 326.300-ORS 326.350. The Superintendent is elected by the citizens of Oregon every four years and is responsible for providing statewide leadership for all elementary and secondary students in Oregon’s school districts and education service districts. The responsibility also extends to public pre-school programs, the state schools for the blind and the deaf, regional programs for children with disabilities, and education programs for adjudicated youth. The Superintendent recommends policy to the State Board of Education. In conjunction with the Legislative Assembly’s actions, the Superintendent and State Board of Education set priorities designed to lead the state’s efforts in early childhood education; improve education for all students in Oregon’s public elementary and secondary school; reduce unnecessary burdens on classrooms, schools and districts; establish ODE as a research, development, and dissemination service; and provide that service with accountability. The Superintendent represents and advocates for Oregon in the national forum.

Organizational Placement
Agency: Department of Education
Office: Superintendent of Public Instruction
Unit: Public Affairs Manager and Communications

Program Description:
The Public Affairs Manager works with the Superintendent of Public Instruction to accomplish the Superintendent's priorities for the Department of Education and Oregon’s public school system. The Public Affairs Manager focuses on public relations, serves as the Department's liaison to the Oregon State Legislature, as well as oversees the Department's communications program. The Public Affairs Manager directs three advisory teams: The Educators Advisory Team, the Underrepresented Minority Advisory Team, and the Youth Advisory Team. These advisory teams help the Superintendent of Public Instruction by making recommendations on policy issues. In addition, the Public Affairs Manager oversees the recognition programs managed by Communications, as well as the department's internship program.

The Communications program provides information to educators, the media, and the general public about education in Oregon. Staff communicates with both internal and external audiences through the media, written materials, and articles for publication and public presentations. The unit also develops information materials and strategies, develops media relationships, responds to media and public inquiries, and trains Department staff. Services include coordination of school improvement, communications with outside organizations and partners such as OEA, COSA, OSBA, OSPRA, etc. In addition, Communications administers several recognition award programs for schools, faculty, and students.

Organizational Placement
Agency: Department of Education
Office: Superintendent of Public Instruction
Unit: Chief Policy Officer

Program Description:
The Chief Policy Officer (CPO) oversees the development and implementation of education policy at the state and federal levels that is necessary for accomplishing the agency's goals. The CPO reviews and advises the Superintendent on the overall direction on policies related to academic standards, assessments, graduation requirements, and the academic content for all schools and districts. In addition, the CPO advises the Superintendent of Public Instruction on policy implementation based on the Superintendent's goals for the agency, such as closing the achievement gap, school and district improvement, accountability, curriculum criteria for school quality, external relationships with community and stakeholders. The CPO oversees the federal liaison, the Office of Analysis and Reporting, and serves as the Department's liaison to the State Board of Education. The CPO also serves as the liaison between ODE and the Quality Education Commission. In addition, the CPO serves on the State Action Education Leadership Project Team, Literacy Steering Committee, and Cultural Competence Summit.

Agency: Department of Education
Office: Analysis and Reporting (OAR)

Program Description:
The Office of Analysis and Reporting coordinates the development of education policies at the state, local and federal level, as well as with the Department of Education. The Office takes the lead on developing ODE’s strategic plan and processes data that holds the Department and local school districts accountable for their performance. Analysis and Reporting gathers statistical data used to determine the appropriate funding for school districts. In addition, they coordinate and perform research and policy analysis to support the agency and the policy goals of the Department of Education while also providing policy analysis for the Superintendent of Public Instruction, State Legislature and Governor. Analysis and Reporting gathers, correlates, and provides statistical information to the federal government and the public via their website or direct request.

## Organizational Placement

**Agency:** Department of Education  
**Office:** Early Learning  
**Program:** Oregon Commission for Child Care (ended 2012)

## Program Description

The Oregon Commission for Child Care advised the Governor and Legislative Assembly on the issues, problems and solutions relating to the availability of safe, quality, accessible and affordable child care in Oregon. The Commission for Child Care reported biennially to the Governor and Legislative Assembly on the critical concerns and issues impacting Oregon’s child care system, and identified the programs, projects and activities the Commission undertook regarding those issues. The Commission had 18 members, including three nonvoting representatives of the Legislative Assembly; one of the serving legislators is appointed by the President of the Senate, and two were appointed by the Speaker of the House of Representatives. The 15 voting members of the Commission served as volunteers; they were comprised of child care providers and consumers, medical and legal professionals, and representatives of business, labor, government, and the public at large. Appointed members of the Commission served three-year terms; legislators served two-year terms; and the Governor designated the Commission’s chairperson, who served a term of one year. The commission ended in 2012.

Organizational Placement
Agency: Department of Education
Office: Early Learning
Unit: Licensing

Program Description
The Office of Child Care Licensing program regulates child care facilities. The program licenses three types of child care facilities: child care centers, family child care homes, and registered family child care homes. Certified child care centers are licensed to care for 13 or more children, or 12 or fewer children in a building constructed as other than a single-family dwelling. Certified family child care homes are licensed to care for up to 16 children, including the provider’s own children, usually in a provider’s residence. Registered family child care homes are licensed to care for up to 10 children, including the provider’s children, in the provider’s residence.

Individuals working in Oregon child care facilities are required to maintain enrollment in the Office of Child Care Central Background Registry. Enrollment requires clearance of a criminal and child protective service background check, and can be suspended or revoked for failure to comply with statutory or administrative requirements.

The Licensing program may deny an application for facility license or Registry enrollment if the facility or individual fails to meet the requirements. The Licensing program will suspend a facility license or Registry enrollment when child welfare is at risk. The Licensing program may revoke facility licenses for an ongoing failure to meet requirements. All denial, suspension, civil penalty and revocation decisions are subject to contested case hearing rights. Contested case hearings are conducted by the Office of Administrative Hearings.

The Office of Child Care Licensing program also provides Oregon child care providers with information and technical assistance by telephone and correspondence. The Licensing program collaborates with other agencies, and refers providers to resource and referral agencies and United State Department of Agriculture (USDA) food assistance programs.

CCRIS (Child Care Regulatory Information System)
Organizational Placement
Agency: Department of Education
Office: Early Learning
Unit: Programs

Program Description
Early Learning Programs work to ensure all families have access to safe, high quality, culturally responsive child care and early learning services through a relentless focus on closing all gaps created by systems that block opportunities for children to be successful.

Early Learning Division Programs develops and administers client service contracts with providers of child care and related services to low-income working families and high-risk parents and children. Providers include private firms, government agencies, private not-for-profit entities, and others. The contracts are funded by the federal Child Care and Development Fund (CCDF), Federal Grants, state General Funds, tax credit contributions, and revenue from licensing fees and fines. The CCDF is funded and authorized by the Child Care and Development Block Grant Act and Section 418 of the Social Security Act.

Early Learning Division Programs performs outreach services and provides information and technical assistance to parents, service providers and stakeholders on child care program services. Early Learning Division Programs work with governmental, tribal, private, and not-for-profit agencies to develop the federally required CCDF Plan for the State of Oregon. The CCDF Plan describes the services to be delivered by state agencies, public/private partnerships, and other contracted entities. It also describes how subsidy dollars will be allocated, and the types of child care quality programs to be delivered by the state. The CCDF Plan is submitted biennially to the U.S. Department of Health and Human Services, Administration for Children and Families.

Early Learning Division Programs works with Accounting Services (in the Financial Services Division) to process payments to providers, resource and referral child care agencies, and local programs for child care quality improvement; it also tracks and reports expenditures from the CCDF to the federal government. The program lays out funding data, contracting requirements, payment rates, eligibility standards, and related information. It also prepares the division’s biennial state budget.

Program: Charter Schools Title V-B

Program Description:
Charter Schools Title V-B is responsible for review, approval/denial and monitoring of charter school applicants, per ORS 338. Oregon passed an act establishing Charter Schools in 1999. Charter Schools Title V-B provides technical expertise and assistance to charter schools in the start up phase. Funding is provided through a federal funds competitive grant process. A charter school is a public school operated by a group of parents, teachers and/or community members as a semi-autonomous school of choice within a school district. It is given the authority to operate under a contract or "charter" between the members of the charter school community and the local board of education (sponsor). Under Oregon law, a charter school is a separate legal entity operating under a binding agreement with a sponsor. A public charter school is subject to certain laws pertaining to public schools, and must operate in compliance with the charter agreement.

Program Description:
The Waivers program allows for schools or districts to petition for a waiver of state or federal requirements in order to accomplish their school improvement programs. Waivers must be approved by the State Board of Education, and only for a waiver of a specific standard or a waiver or extension of a timeline for program implementation. The program is responsible for coordinating the approval process, which includes reviewing waiver requests/applications and making recommendations to the State Board of Education, which formally approve the waivers. Approved waiver requests become part of the school district's permanent record, and accepted waivers are notated in the State Board of Education's meeting minutes.

Agency: Department of Education
Office: Educational Improvement and Innovation
Unit: Secondary/Post Secondary Transitions

Program Description:
Secondary/Post Secondary Transitions is a team of individual experts in various subject areas that facilitate the transition from high school to post secondary education. The team’s efforts concentrate upon assisting students’ transition from high school to community colleges and four-year institutions. Secondary/Post Secondary Transitions Team members partner with other teams and programs within ODE to foster transition by all students.

Program: Advanced Placement Incentive Program

Program Description:
The Advanced Placement Incentive Program is the result of three-year renewable grants that provide comprehensive training and support to students, teachers, counselors, and administrators in schools where 40% or more of the students are qualified for free and subsidized lunch. The program's goals are to provide economic assistance for tuition, textbooks and supplies, to students at need that wish to pursue Advanced Placement or International Baccalaureate coursework. The program also provides support to middle and late-elementary school students to prepare for Advanced Placement or International Baccalaureate coursework. The program receives and approves funding applications, coordinates disbursement of funds, monitors grantees, and receives periodic and final reports.

Program: Credit for Proficiency Pilot

Program Description:
The Credit for Proficiency Pilot Program is based on implementation of the State Board of Education policy allowing Districts to award credit based on proficiency. The subsequent OAR regarding Credit Options (581-022-1131), is an option for Oregon school districts. Students are provided the opportunity to earn graduation credits by demonstrating what they know and can do beyond the traditional manner of coursework in at least 130 clock hours. Policies and procedures to enable students to access and achieve proficiency based credit are created and implemented locally.

Program: Career and Technical Education (CTE)

Program Description:
Career and Technical Education (CTE), traditionally known as vocational technical training, is responsible for providing leadership in integrating career and technical education instruction, academic content, and career related learning experiences to prepare secondary and post secondary students for further education and entrance into the workforce per ORS 329 and ORS 344. CTE provides assistance to secondary and postsecondary institutions for program planning, approval, implementation, evaluation, and improvement of career and technical education programs. CTE’s Administration provides coordination of grant programs for local agencies to ensure federal and state compliance, administers the State Plan for Career and Technical Education, oversees CTE’s budget, and provides technical assistance regarding CTE programs.

CTE administers the Carl D. Perkins grant. Grant funds received under the Carl D. Perkins Vocational and Applied Technology Education Act of 1998 (Pub. L. 105-332) are used for program development and implementation to integrate career and technical education instruction, academic content, and career related learning experiences to prepare secondary and post secondary students for further education and entrance into the workforce. Local education agencies, either individually or as consortiums, apply annually for Perkins funds to support career and technical education instruction and program improvement activities. Program staff approve applications, monitor and receive periodic reports from recipients, and provide reports to the U.S. Department of Education.

The Career and Technical Education Quality Assurance process is used to approve Career and Technical Education programs at high schools around the state. The process is a requirement of the federal Carl Perkins State Plan to receive CTE funding.

NOTE: Career and Technical Education formerly known as Professional Technical Education.

Program: Civil Rights Onsite Reviews of CTE Programs

Program Description:
The Office of Educational Improvement and Innovation (EII) reviews Oregon’s Career and Technical Education (CTE) programs to ensure compliance with state and federal nondiscrimination laws. Pursuant to Oregon’s receipt of federal funds under the Carl D. Perkins Career and Technical Education Act of 2006 (P.L. 109-270), EII’s Civil Rights Onsite Reviews of CTE Programs reviews the state’s career and technical education programs to prevent discrimination and ensure equal access to programs, courses and information for all students.

EII conducts onsite civil rights reviews of targeted Carl D. Perkins grant sub-recipient school districts and community colleges; issues reports on its findings; and negotiates and obtains signed Voluntary Compliance Plans to remedy identified violations. EII actively supports Oregon’s statutorily required school district prohibition of harassment, intimidation, bullying, and cyberbullying (ORS 339.351 - 339.364; OAR 581-022-1140); and the civil rights enforced by the U.S. Department of Education’s Office for Civil Rights (Title VI of the Civil Rights Act of 1964, 34 CFR 100; Title IX of the Education Amendments of 1972, 34 CFR 106; Section 504 of the Rehabilitation Act of 1973, 34 CFR 104; and Vocational Education Program Guidelines for Eliminating Discrimination and Denial of Services on the Basis of Race, Color, and National Origin, Sex and Handicap, 34 CFR 100 Appendix B. EII also supports the U.S. Department of Justice’s enforcement of Title II of the Americans with Disabilities Act of 1990, 28 CFR 35).

Reports of findings and Voluntary Compliance Plans are maintained with the Biennial Civil Rights Compliance Reports to the U.S. Department of Education’s Office for Civil Rights.

**Program Description:**
The Expanded Options program is an option for students enrolled in grades 11 and 12 to have additional options to continue or complete their education, earn concurrent high school and college credits, and gain early entry into post-secondary education. Enrolled students receive both college credit and credit towards their high school diploma. The program supports both current and the development of accelerated college credit programs, and also allows eligible students to enroll full-time or part-time in an eligible post-secondary institution. Additionally, the program provides public funding to the eligible post-secondary institutions for educational services to eligible students to offset the cost of tuition, fees, textbooks, equipment and materials for students who participate in the Expanded Options Program.

The State Board of Education and the House and Senate committees relating to education are provided with statistical information annually, which highlights the number and types of credit being awarded, participating student demographics, and the estimated college tuition cost savings.

Agency: Department of Education
Office: Educational Improvement and Innovation
Unit: Private Schools and Specialized Programs
Program: Alternative Education

Program Description:
The Alternative Education program responds to and supports public and private schools that wish to provide alternative education programs to students. If registered, the programs may receive state funding for serving students in their districts. Program staff process annual applications, monitor and receive reports from grantees, and provide reports to federal Department of Education. Alternative education programs provide an opportunity for qualified students to receive a flexible approach to education that will suit their academic needs. Programs work in conjunction with local school districts to determine which students qualify for alternative education, what alternative educational approach best suits each student, and ensure that students receive the minimum level of state-mandated curriculum requirements.

Program: Instructional Materials

Program Description:
The Instructional Materials Program is responsible for the adoption of instructional materials throughout Oregon. Instructional materials are evaluated and adopted by the State Board of Education, with each subject revisited and updated after seven years. The program coordinates the year-long process which includes criteria committees, where teachers and qualified specialists throughout the state offer input as to the criteria for selecting new instructional materials; notifying publishers and coordinating their submissions and presentations; coordinating the review and evaluation of the submissions; making final recommendations to the State Board of Education which formally adopts these instructional materials; processing contracts with publishers of adopted materials; and disbursing the final adopted list within the state. In addition, the program processes postponement and independent textbook adoption requests from school districts that want to delay the adoption or purchase of instructional materials for one year, or wish to use instructional materials not on the recommended list adopted by the State Board.

Program: Private Career Schools

Program Description:
The Private Career Schools (PCS) program is responsible for licensing and regulating private career schools that focus on vocational, career, and technical post-secondary schools. ODE licenses and regulates the schools for compliance with laws, rules, regulations, and guidelines; approves new school programs; performs annual site visits; processes teacher and staff registrations and approves teacher continuing education hours; trains new school owners to assist them in initial start-up; answers inquiries from the public, students, and other agencies; oversees and resolves complaints, provides technical assistance to schools on compliance issues; and notifies schools of violations and assesses penalties for non-compliance. The program administers the Tuition Protection Fund, which schools are required to contribute to and which protects students’ tuition funds in the event of a school closure. The program maintains transcripts for closed schools. ODE also approves applications by out-of-state/out-of-country persons who seek to take state certification exams administered by the Board of Barbers and Hairdressers. In addition, the PCS program provides support services for the State Private Career Schools Advisory Committee, which operates under ORS 345.330. The committee advises and makes recommendations to the State Board of Education and ODE about private career school issues.

Program: Veteran’s Education

Program Description:
The Veteran’s Education program oversees educational opportunities that may be offered in public and private colleges and universities, community colleges, and private career schools. A veteran can receive federal education benefits only when attending an approved program. Through an annual contract with the U.S. Department of Veteran’s Affairs (USDVA), ODE annually approves approximately 110 programs; monitors the programs for compliance to laws, rules, regulations, and guidelines; performs annual site visits; answers inquiries from the public, students, and other agencies; oversees and resolves complaints; and provides technical assistance to schools on compliance issues. Once approved by ODE, the programs must also be accepted by the USDVA. ODE coordinates this process as well as reports on active programs to the USDVA on a quarterly and annual basis.

RESOURCES FOR EDUCATIONAL ACHIEVEMENT AND LEADERSHIP
Organizational Placement
Agency: Department of Education
Office: Educational Improvement and Innovation
Unit: Standards and Evaluation
Program: Certificate of Initial Mastery (CIM)

Program Description:
Standards and Evaluation is responsible for the overall coordination of the development and implementation of the Certificate of Initial Mastery (CIM) per ORS 329.465 and OAR 581-022-1110. The Certificate of Initial Mastery is awarded to Oregon students who achieve grade 10 performance standards in academic content areas of English, mathematics, science, the social sciences, and additional local district CIM requirements. In addition, students must demonstrate proficiency in the areas of second language, arts and physical education based upon performance standards defined in school board policy.

Standards and Evaluation oversees the development and implementation process of the CIM by coordinating standards meetings which involve input and evaluation from other ODE offices and staff, advisory groups, and education professionals; producing and presenting the standards to the State Board of Education for adoption; disseminating standards statewide; and providing technical assistance to schools and providing information about the CIM to education and community organizations. In addition, Standards and Evaluation coordinates the process for continued development and refinement of the CIM, common curriculum goals, and performance standards.

Program Records:

Program: Certificate of Advanced Mastery (CAM)

Program Description:
Standards and Evaluation is responsible for the overall coordination and development of the Certificate of Advanced Mastery (CAM) in the Department per ORS 329.475. The Certificate of Advanced Mastery will be awarded to Oregon students beginning academic year 2008-2009, who achieve high academic and meaningful career-related learning standards, after completing a Certificate of Initial Mastery (CIM). Staff are involved in defining CAM career related learning standards and experiences.

CAM development staff oversee the development process by coordinating standards meetings which involve input and evaluation from other ODE offices and staff, education professionals, and interested business and industry representatives; produce and present the standards to the State Board of Education for adoption; statewide dissemination of standards; and provide technical assistance to schools and provide information about the CAM to education and community organizations.

Program: Hurricane Relief

Program Description:
Hurricane Relief is a federally funded program providing financial aid to schools and districts providing educational services to students displaced by Hurricanes Katrina and Rita. The federal government made a one-time appropriation of funds. The appropriation for Oregon was made based upon the number of students displaced by the hurricanes. Districts apply to the Department of Education for relief funds. Relief funds are administered as individual grants by the Department of Education.

Program: No Child Left Behind (NCLB)

Program Description:
No Child Left Behind is the popular name for the revised Elementary and Secondary Education Act (ESEA) signed by President Bush on January 2, 2002. The Department of Education is responsible for analyzing and implementing the act. The Department of Education works to ensure Oregon meets or exceeds the requirements outlined in No Child Left Behind. The requirements include the alignment of content and assessment via a unified accountability system, the defining and monitoring of adequate yearly progress, testing of students in math, science, social studies, and English in grades three, five, eight, and ten, participation in federal testing, the issuance of report cards meeting federally mandated standards. In addition, NCLB identifies and assists low-performance schools to meet NCLB goals, ensures teacher quality, and retains paraprofessional per federal regulations.

Through a series of “Title” programs, Department of Education staff support the development and implementation of programs and services which meet/exceed the requirement of NCLB.

Subprogram: Title I-C: Migrant Education

Program Description:
Title I-C: Migrant Education Program is part of the No Child Left Behind Act. Migrant education is responsible for ensuring children of migrant workers have equal, unfettered access to the same free, appropriate educational opportunities and services provided to other children. Migrant Education assists state and local education agencies in removing barriers to school enrollment, attendance and achievement by migrant children. Migrant Education ensures migrant children have the opportunity to meet state content and performance standards, supports high quality comprehensive educational programs that reduce educational disruption and issues related to repeated relocations and ensures migrant children receive appropriate educational services that address their special needs. In addition, Migrant Education designs programs that assist migrant children to overcome educational disruption, cultural and language barriers, social isolation, related health issues and other factors inhibiting the children’s learning opportunities and abilities. Migrant Education addresses preschool, regular school and summer school educational needs.

**Sub-program:** Commodity Food Distribution

**Program Description:**
The Commodity Food Distribution program, overseen by the National School Lunch program, is a planned assistance program funded by the USDA. An entitlement model, participating sponsors receive assistance in the form of USDA approved commodity foods to supplement, bolster student meals. Participating sponsors may use a portion of their allocation to direct items/materials to processors for the creation of specific items. All other allocated dollars go to purchase “brown box” commodity items approved and prepared by the USDA. Items include but are not limited to canned goods, cheese, oil, peanut butter, frozen fruit and vegetables, poultry, and beef. The program uses a contracted warehouse and carrier to receive, store, and distribute all “brown box” items to participants. Participants in the National School Lunch program are eligible to participate in the Commodity Food Distribution program.

Organizational Placement
Agency: Department of Education
Office: Finance and Administration
Unit: Employee Services

Program Description:
The Employee Services unit provides human resources and payroll services, facilities oversight and coordination, safety assessments, and mail services to the agency. In addition, Employee Services oversees the Pupil Transportation program.

Employee Services is responsible for employee selection and recruitment, staff development, safety program, personnel records, payroll, labor relations activities, administration of collective bargaining agreements, administration of applicable rules and policies, and position classification. Employee Services is also responsible for managing fleet vehicle records, business plan records, leases and contracts for agency property, disaster planning and their asbestos plan records. Employee Services staff are responsible for pickup and delivery of mail, as well as maintaining the return receipts of certified mail. Staff perform inspections, maintain first aid kits, produce instructional videos and orientations, inventory staff movements and floor plans, and develop ergonomic expectations.

Program Records:

132 Fingerprint-Based Criminal History Check Records
   (a) Retain initial verification report 3 years after termination, destroy
   (b) Retain all other records until superseded or 3 years after termination, destroy

133 Pre-Employment Criminal History Check Records
   Retain 3 years after position filled, destroy

134 Volunteer Criminal History Check Records

Agency: Department of Education
Office: Finance and Administration
Unit: Employee Services
Program: Pupil Transportation Services

Program Description:

Pupil Transportation Services is responsible for adopting and enforcing rules relating to student transportation infrastructure and activity, including, but not limited to, establishing vehicle construction and equipment standards, operation, and district special qualifications per ORS 820.100-820.190. Special qualifications include vehicle licensing, the certification of bus drivers, conducting vehicle inspections, and maintaining accident reports. In addition, Pupil Transportation Services process pre-employment, volunteer, and current employee criminal records checks for school districts through the FBI and the Oregon Law Enforcement Data System (LEDS) per ORS 326.603-326.607. Staff provides technical assistance to school districts and bus contractors in all phases of transportation including maintenance, inspection and purchasing of buses and transportation facilities. In addition, staff assists districts to interpret state and federal statutes and rules, in driver selection and training, creating policies and establishing and updating routes. Assistance and training is provided to districts on safety patrol, crosswalk, and safe walking route issues. Staff visits schools and school district transportation infrastructure sites on a rotational basis, annually inspects pupil transportation vehicles and receives annual district transportation reports from districts. Using the annual district reports agency staff produce transportation statistical reports.

Office: Finance and Administration
Unit: Fair Dismissal Appeals Board (FDAB)

Program Description:
The Fair Dismissal Appeals Board is responsible for hearing and ruling on appeals brought by permanent/tenured teachers within the state who contend that they have been unfairly dismissed from their jobs per ORS 342.805-342.934. The Board is comprised of 20 members appointed by the Governor representing various district and education professionals. Three FDAB members preside at each appeals hearing. Teachers may be dismissed for a variety of statutory causes (ORS 342.865) including immorality, insubordination, neglect of duty, conviction of a crime involving moral turpitude, and inadequate performance. If a teacher disagrees with an FDAB ruling, they may further appeal to the Court of Appeals. The Department’s Superintendent of Public Instruction appoints an Executive Secretary to the Board. The Office of Finance and Administration provides support services for the Fair Dismissal Appeals Board.

Program Records:
144 Fair Dismissal Appeals Board Records, 1972 - [ongoing] 1.50 c.f.

Organizational Placement
Agency: Department of Education (ODE)
Office: Office of Assessment and Information Services (OAIS)

Program Description:
The Office of Assessment and Information Services supports the mission of the Oregon Department of Education, Schools, School Districts and Education Service Districts (ESDs) by providing information services and support to ensure business continuity, accountability, leadership and program improvement. OAIS supports department information technology resources and collects data and reports from schools, districts and ESDs. In addition, OAIS is responsible for designing, developing and implementing student assessment infrastructure. OAIS is composed of the following groups: Information Technology Services, Assessment and Accountability, Enterprise Information Architect, and Instructional Technology.

OAIS is responsible for the development, implementation and maintenance of internal information services used by department staff. OAIS provides support to internal and external customers, is responsible for application development and maintenance, supports the agency’s network and servers, and provides desktop support and video teleconference scheduling and training. In addition, OAIS provides application development, maintenance and support to external customers, addressing technical issues relating to information technology and services.

OAIS staff provide project management and system integration expertise to assist agency staff to increase efficiency and resource sharing while developing support for statewide initiatives increasing the efficiency and use of student records. OAIS promotes efficiency through a project management model storing all project documentation and information centrally within ODE.

OAIS administers Oregon’s student assessment program. The program tests students at grades 3, 5, 8, and 10 on the state content and performance standards adopted by the State Board of Education. The assessment identifies students who meet or exceed standards leading to both the Certificate of Initial Mastery (CIM) and Certificate of Advanced Mastery (CAM). It leads the development of performance standards and coordinates the use of standards by agency programs and teams. All standards are reviewed and adopted/denied by the State Board of Education.

ODE staff are responsible for developing the assessment tests, scoring the tests, and reporting test results. Staff coordinates test development by using advisory panels to advise on test content; working with contractors who produce test materials; maintaining a test item bank and content information; and producing resource materials for teachers to prepare for assessment testing. Scoring functions include conducting workshops for developing scoring materials, producing training and resource materials such as scoring guides, and coordinating continuing education college credit offerings to scorers (teachers) for their assessment scoring experience. Final reports on assessment results, produced by both ODE and the contractors, are interpreted for a variety of purposes including statistical and trend analysis. These results are used by every Office within the Department and are published in a variety of ways. Statistical information is produced that is useful to ODE, school districts, legislators, policy makers, other state and national agencies, and the public in understanding the status of K-12 education in Oregon.
In addition, the group provides support services to the Statewide Assessment Advisory Committee, which advises the State Board of Education on assessment policy issues. The Committee, comprised of 23 members who are appointed by the Assistant Superintendent of Assessment and Information Services, serve for the current school year with the possibility of renewal. The group also annually coordinates with a Technical Design Team, composed of national experts appointed by the Assistant Superintendent of Assessment and Information Services. The team advises ODE and provides research studies on the assessment program.

OAIS also manages the KIDS Program, an automated electronic student record sharing system that provides information to teachers and educators across the state. KIDS (Pre-K through Grade 16 Integrated Data Systems) assists the ODE and local school districts in meeting the continuing data and record keeping challenges of the No Child Left Behind Act of 2001 (Pub. L. 107-110). The program streamlines the data collection process and improves authorized data accessibility.

OAIS maintains five purgeable databases for the KIDS Program. Central Operational Data Store (Central ODS) integrates detailed student data for use in analysis and reporting. The Institutions database stores identification data regarding ODE partner institutions to increase the accuracy and usability of the agency’s institutional information. The KIDS Data Warehouse stores aggregated student data with unique student identifiers removed; generated data and reports (standardized and ad hoc) provide statistical information at the school, district, county, Education Service District, and state levels. The ODE Transactional database (Secure Student) facilitates and maintains the transactions of the agency. The Oregon Student Transcript Exchange (OSTX) is a secure electronic student record transfer application that enables the exchange of student records and transcripts between schools, school districts, colleges and universities. The Student Centered database is used to collect and store Oregon student assessment tests.

**Program Records:**

147 **Annual Agency Progress Report, 19??-[ongoing]**, 1.00 c.f.

Organizational Placement
Agency: Department of Education
Office: Student Learning and Partnerships (SLP)

Program Description:
The Office of Student Learning and Partnerships supports and monitors programs that provide direct services to diverse learners and assists in the development of strategies to address unique learning differences. Staff ensure that multiple teaching and learning strategies encompass student needs derived from socio-economic, social emotional, linguistic, cultural, and ethnic differences. This focus allows learners to demonstrate their performance skills and to benefit from participation in venues as they prepare to transition to the adult community. Units manage programs that include special education, early childhood education, accountability and program compliance, Systems Performance Review and Improvement on monitoring (SPR&I) and capacity building and partnerships with community stakeholders. SLP reports to the federal educational authority on 34 issues in the State Performance Plan.

Organizational Placement
Agency: Department of Education
Office: Student Learning and Partnerships
Unit: Early Childhood Education
Program: Early Intervention and Early Childhood Special Education

Program Description:
The Early Intervention and Early Childhood Special Education (EI/ECSE) program is funded by both federal and state funds, and is administered through nine regional contractors who further subcontract with local programs for delivery of services through county health and mental health programs, school districts, university affiliated programs, education service districts, and hospital programs.

Early Intervention (EI) services are provided to children, birth through two years of age, who have a delay in any one of a number of developmental areas or a probability of developing a developmental delay.

Early Childhood Special Education (ECSE) services are provided to children between three years and school age who need services because they are experiencing a developmental delay or have been evaluated as having one of the federally defined disabilities/impairments (visual, hearing, communication, orthopedic, specific learning disability, serious emotional disturbance, mental retardation, autism spectrum disorder, deaf-blind, traumatic brain injury, or other health impairments).

EI/ECSE is responsible for providing technical assistance, collecting data on children for decision-making purposes, and monitoring and performing site visits to programs as part of the special education site visit process. In addition, program staff provide support services to the EI/ECSE Contractor Team, as well as the State Interagency Coordinating Council, which is responsible for advising appropriate agencies on the unmet needs in early intervention/early childhood special education programs for children with disabilities, and assist agencies in the development and implementation of statewide EI/ECSE policies and programs.

Program Description:
Regional Programs is responsible for coordinating eight Regional Programs in the state. Regional Programs, in cooperation with local school districts, families, and community agencies, provide specialized educational support for children with low-incidence disabilities; autism, hearing, vision, severe orthopedic, and severe mental health impairments, from birth through age 21. Types of services provided include, but are not limited to: specially designed instruction in academic areas, Braille, language development, orientation and mobility, use of technology for communication, independent living skills, vocational exploration, and related services such as occupational therapy. The Regional Programs also offer technical assistance, demonstrations, and other on-site assistance, and access to resource materials. Program staff coordinate monthly regional management team meetings, approve regional plans, and collect annual census data for students with disabilities. They also coordinate working groups which focus on each disability area (such as the Deaf/Blind Advisory Council). The groups are comprised of special education coordinators, parents, and regional program participants who facilitate communications, oversee programs and budgets, and perform needs assessment.

Program: Healthy Kids Learn Better

Program Description:
Healthy Kids Learn Better is a coordinated health program approach to ensure students achieve more by having access to comprehensive physical, mental and preventative health care services. Healthy Kids Learn Better seeks to create school-community partnerships to address kids’ physical, emotional and social needs thereby improving their learning potential. Healthy Kids Learn Better seeks to mitigate non-school related issues; including but not limited to hunger, depression, harassment, abuse, substance abuse, unsafe living conditions, and obesity.

Program: HIV/AIDS Prevention Education

Program Description:
HIV/AIDS Prevention Education program striving to improve HIV and sexually transmitted disease prevention programs at districts, schools and in the community, to help decrease rates of the diseases. Program staff provides in-service training, implementation assistance, instructional materials and resources, and assistance in program planning, evaluation and data-driven decision making. Staff approve applications, monitor recipients, receive periodic reports, and provide reports to the CDC. In cooperation with the Centers for Disease Control (CDC), ODE administers the federal HIV/AIDS Cooperative Grant Program. Workshops and support are provided to districts and schools to implement and support programs for reducing risk behavior, and HIV/AIDS education.

Program: Indian, Native Hawaiian, and Alaska Native Education

Program Description:
The Indian, Native Hawaiian, and Alaska Native Education program is responsible for administering federal Title VII funding to native education programs in Oregon. Program staff also work with local education agencies to implement the Oregon American Indian/Alaska Native Education Plan, a statewide education plan developed in cooperation with American Indian and Alaska Native tribes and communities. The program participates as a member of the Oregon Indian Education Association, and facilitates the Government to Government Indian Education Cluster, which works in partnership between state agencies and Oregon’s Indian tribes. Additionally, the program provides support for native language preservation instruction.

Program: Safe and Drug-Free Schools and Communities - Title IV-A

Program Description:
Safe and Drug-Free Schools and Communities – Title IV-A program is responsible for administering the federal Safe and Drug-Free Schools and Communities Act within the state. Through Title IV funds (Elementary and Secondary Education Act) received from the U.S. Department of Education (USDOE), the program provides grant funding to local education agencies to establish, operate, and improve local programs for school drug and violence prevention, early intervention, rehabilitation referral, and education in elementary and secondary schools. The section monitors recipients (including site visits as needed), receives periodic status reports, and reports to the USDOE. Program staff also provide a variety of technical assistance to local education agencies including workshops, staff and student training, and conferences and institutes. The program oversees the Violence Prevention Safety Institute, an annual conference concerning Safe and Drug-Free Schools and Communities, and when necessary, provides cultural competency support. Cultural competency strives to train students as well as educational staff to be sensitive to different cultures, in the effort that such sensitivity could lead to a reduction of violence and drug use. The program also maintains the Suspension, Expulsion, and Training Database, which gathers annual information from schools, and then provides a report to the federal government to show improvement and receive more funding.

Program: Civil Rights and Equal Education Opportunity

Program Description:
The Civil Rights and Equal Education Opportunity program is responsible for assisting school districts, parents or students with civil rights and equal education opportunity issues and training within Oregon. Services are provided to protect individuals from discrimination regardless of race, color, national origin, sex, age, disability, religion, and marital status. The program provides training and technical assistance with the regional Desegregation Assistance Center as well as the regional Office of Civil Rights. The program provides information related to civil rights and equal education opportunity, complaint procedures, and other technical assistance. Services are provided to mediate disputes to avoid a legal hearing and provide a satisfactory resolution to all parties. The program also provides accessibility reviews of educational facilities to ensure handicap accessibility. All students are ensured to have nutritional civil rights, in conjunction with the USDA, that allow all students equal access to school nutritional programs, and to provide professional technical education at the high-school and community college level to all students interested.

Unit: Special Education

Program Description:
The Special Education unit is responsible to ensure that all individuals eligible for special education and related services, ages birth through 21, are provided effective programs that result in increased student achievement and lead to successful transition to independent living, employment, and life in a community of the individual's choice. The unit provides leadership, information, guidance, resources, training and technical assistance to local and regional programs and other state agencies. As part of its function, the Special Education unit directs statewide education programs such as the state special schools, Oregon School for the Blind (OSB) and the Oregon School for the Deaf (OSD), the Youth Corrections Education Program, Juvenile Detention Education Programs, Regional Programs, Early Intervention and Early Childhood Special Education, educational services for students in long-term care and treatment facilities and certain hospitals. The unit also provides administrative and programmatic oversight to the Oregon Pre-kindergarten program, maintains and directs the Oregon School for the Blind and the Oregon School for the Deaf, administers contracts and grants to provide local and state-operated programs and services; monitors education agencies for compliance with state and federal special education laws for program improvement; and assures that students with special needs are included in and benefit from the implementation of Oregon's Educational Act for the 21st Century. Special Education collaborates with its partners to improve the outcomes for all students, especially those with disabilities and other special needs. The partners include parents, school districts, education service districts, all offices within the Oregon Department of Education, universities, colleges, public and private agencies, advocacy organizations, professional organizations, and other local, state, and federal organizations. The unit provides research, evaluation, and data collection and analysis for the Department, the Legislature, and other State agencies, and for local, regional, state, and federal special education and other programs. The unit allocates and distributes federal and state funds for special education and other programs and services. The Special Education unit also provides mediation, complaint investigation, and dispute resolution services to parents and education agencies.

Program: Dispute Resolution/Legal Section (Mediation/Complaints/Conflict Resolution)

Program Description:
Dispute Resolution is responsible for coordinating the dispute resolution component required under the Individuals with Disabilities Education Act (IDEA). IDEA requires states to provide mediation services, complaint resolution processes and impartial due process hearings. Dispute Resolution provides advice, technical assistance and answers to inquiries concerning special education and civil rights law from ODE staff and education stakeholders. Due process hearing services are conducted by the Office of Administrative Hearings while mediation services are contracted by Dispute Resolution with mediators agreed to by interested parties.

Program: Health Services

Program Description:
Health Services is responsible for providing technical assistance throughout the state’s education system concerning health services for students. Health Services responds to inquiries from local district personnel and the public on a variety of health-related issues including administration of medication by school personnel, first-aid training requirements, communicable disease information, emergency health services, health records, health screening, and student immunizations. In addition, Health Services takes a lead role in developing health related Department administrative rules. Through Health Services ODE collaborates with other organizations including the Oregon Board of Nursing, Oregon Health Division, school-based health centers, Oregon Occupational Safety and Health Administration, and the Oregon School Nurses Association.

Program: State Advisory Council for Special Education (SACSE)

Program Description:
The State Advisory Council for Special Education (SACSE) reviews aspects of statewide programs in special education. In addition, the council provides advice to the Superintendent of Public Instruction on unmet needs concerning special education per ORS 343.287 and PL 105-17. SACSE originated in response to the 1977 Education of the Handicapped Act. Council members are appointed by and serve at the discretion of the Superintendent. The SACSE has three sub-committees: Dispute Resolution, Transition Advisory, and Personnel Development. The sub-committees provide research, oversight and advice to SACSE. Dispute Resolution oversees an equitable and non-biased system for complaint investigations, due process hearings and other dispute resolution processes. Transition Advisory oversees the delivery of appropriate transition services promoting movement from school to post secondary education and meaningful employment. Personnel Development considers the development and evaluation of the Comprehensive System of Personnel Development and elements of ODE leadership in the recruitment and retention of qualified personnel to educate individuals with disabilities.

Program: Systems Performance Review and Improvement

Program Description:
The Special Education Systems Performance Review and Improvement program monitors statewide special education programs for data-informed decision-making. The program collects and interprets performance data, develops and implements an improvement plan, and evaluates the impact and effectiveness of improvement strategies. The program monitors statewide special education programs for standards compliance, to gather statistical information that can be used for the improvement of student performance.

Program: Federal and State Funds Management and Accountability

Program Description:
The Special Education unit is responsible for the general supervision of special education statewide. The responsibility, pursuant to the Individuals with Disabilities Education Act (IDEA, implemented by 34 C.F.R 300.600), includes assuring compliance with federal and state regulations for special education by each educational program for children and youth with disabilities including those administered by other public agencies. Special Education administers federal and state funds distribution to local education agencies, including reimbursements for out-of-state placement of students (in coordination with Business Services, see separate description). Some funds are distributed through IDEA grants, which are allocated based on child count totals and a variety of special purpose state and/or federal grants. In addition, program staff also conduct on-site program reviews; collect and approve agencies’ annual applications for federal and state funds; collect and approve agencies’ policies and procedures concerning their implementation of federal and state regulations; operate a complaints and special review process for resolving allegations of non-compliance by agencies; and provide training and technical assistance to agencies to assist them in meeting federal and state regulations.
